

The background of the entire cover is a deep space image filled with stars and distant galaxies. Two prominent galaxies are visible: one in the upper right corner and a larger one in the lower right. Both galaxies exhibit a vibrant pink and purple color palette, suggesting the presence of ionized hydrogen gas (H II regions) or specific light filters used in astronomical imaging. The galaxies have bright, yellowish-white central cores, likely representing the dense regions of stars and dust at their centers. The surrounding space is a dark, velvety black, densely populated with individual stars of varying brightness and colors.
