The Cambridge World History of Slavery: Volume 2, AD 500-AD 1420 Craig Perry, David Eltis, Stanley L. Engerman, David Richardson, 2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in The Cambridge World History of Slavery covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars acknowledged as leaders in their respective fields The volume demonstrates

the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people **Iberia and the Mediterranean World of the Middle Ages, Volume II** Kagay, Padilla, Paul Chevedden, 2021-09-20 Brill's series The Medieval Mediterranean has established itself as the main forum for studies exploring all aspects of the Mediterranean world during a period of 1000 years In the medieval period the Mediterranean experienced a multiplicity of developments in social political and economic structures and in populations religions and cultures The centuries between the Late Roman world of the fourth and fifth century and the early modern Braudelian Mediterranean of the sixteenth century were characterised by sweeping changes including the establishment of post Roman kingdoms in the west the emergence of Slav societies in the Balkans the struggle between Christians and Muslims in Spain and the movement of crusaders Founded in 1993 The Medieval Mediterranean series reflects the complexity of this period with a wide variety of high quality scholarly works from broad surveys to diachronic studies of particular areas or cities investigations of individual themes or issues conference proceedings text editions and fully annotated translations Top specialists in a range of fields have contributed to the series and the volumes which have appeared so far have been warmly welcomed by reviewers This series is indispensable for readers with interests in the history of later antiquity the Middle Ages Byzantium Islam the Balkans and the Black Sea area Publication schedule At present 3 volumes of around 350 pages each are published in the series each year The vast majority of the books in the series are in the English language although works of outstanding quality in French or German may also be included Volumes contain illustrations and maps where appropriate **Peasants, Lords, and State: Comparing Peasant Conditions in Scandinavia and the Eastern Alpine Region, 1000-1750**, 2020-08-10 Peasants Lords and State Comparing Peasant Conditions in Scandinavia and the Eastern Alpine Region 1000 1750 challenges the once widespread view rooted in the historical thinking of the nineteenth century that Scandinavian and especially Norwegian peasants enjoyed a particular peasant freedom compared to their Continental counterparts Markers of this supposed freedom were believed to be peasants widespread ownership of land extensive control over land and resources and comprehensive judicial influence through the institution of the thing The existence of slaves and unfree people was furthermore considered a marginal phenomenon The contributors compare Scandinavia with the eastern Alpine region two regions comprising fertile plains as well as rugged mountainous areas This offers an opportunity to analyse the effect of topographical factors without neglecting the influence of manorial and territorial power structures over the long time span of c 1000 to 1750 With contributions by Markus Cerman Tore Iversen Michael Mitterauer John Ragnar Myking Josef Riedmann Werner R sener Helge Salvesen and Stefan Sonderegger *The Slave Ship, Memory and the Origin of Modernity* Martyn Hudson, 2017-05-15 Traces slave names the islands and cities into which we are born our musics and rhythms our genetic compositions our stories of our lost utopias

and the atrocities inflicted upon our ancestors by our ancestors the social structure of our cities the nature of our diasporas the scars inflicted by history These are all the remnants of the middle passage of the slave ship for those in the multiple diasporas of the globe today whose complex histories were shaped by that journey Whatever remnants that once existed in the subjectivities and collectivities upon which slavery was inflicted has long passed But there are hints in material culture genetic and cultural transmissions and objects that shape certain kinds of narratives this is how we know ourselves and how we tell our stories This path breaking book uncovers the significance of the memory of the slave ship for modernity as well as its role in the cultural production of modernity By so doing it examines methods of ethnography for historical events and experiences and offers a sociology and a history from below of the slave experience The arguments in this book show the way for using memory studies to undermine contemporary slavery
