Rotberg, 2001 This collection looks at the many dimensions of the study of populations and population movements **A Family Venture** Joan E. Cashin, 1991-10-24 This book is about the different ways that men and women experienced migration from the Southern seaboard to the antebellum Southern frontier Based upon extensive research in planter family papers Cashin studies how the sexes went to the frontier with diverging agendas men tried to escape the family while women tried to preserve it On the frontier men usually settled far from relatives leaving women lonely and disoriented in a strange environment As kinship networks broke down sex roles changed and relations between men and women became more inequitable Migration also changed race relations because many men abandoned paternalistic race relations and abused their slaves However many women continued to practice paternalism and a few even sympathized with slaves as they never had before Drawing on rich archival sources Cashin examines the decision of families to migrate the effects of migration on planter family life and the way old ties were maintained and new ones formed *The Family System of the Paramaribo Creoles* Willem F.L. Buschkens, 2014-10-22 1 1 General In this book the family life of the lower class Creole population of 1 Paramaribo will be discussed This group which will henceforward be referred to as the lower class Creoles possesses a West Indian family system implying that the latter display all the main characteristics of the Caribbean Afro American family The Creoles constitute a numerically important ethnic segment of the society of Surinam This society is composed of different ethnic groups comprising besides a handful of Amerindians an immigrant population including people from many different parts of the world It is made up of Creoles Indians or Hindustanis as they are called in Surinam Indonesians Javanese Chinese Europeans Lebanese and Bush Negroes the latter of whom still live predominantly in tribes The Creoles are the descendants of those Negro slaves brought to Surinam from Africa who did not escape from bondage by running away from the plantations into the Bush as their brothers the Bush Negroes did The circumstances under which the bulk of the slaves lived were appalling Nor were they or are they still in p at present much better for their descendants the lower class Creoles The Family Green: a Pictorial History Sylvia Green Robinson, 2007-11-06 150 Years of the history of an American family A

history of the descendants of Columbus and Nancy Green who were born into slavery in the United States of America      The Family in Past Perspective Ellen J. Kendall, Ross Kendall, 2021-05-30 This volume takes a more comprehensive view of past familial dynamics than has been previously attempted By applying interdisciplinary perspectives to periods ranging from the Prehistoric to the Modern it informs a wider understanding of the term family and the implications of family dynamics for children and their social networks in the past Contributors drawn from across the humanities and social sciences present research addressing three primary themes modes of kinship and familial structure the convergence and divergence between the idealised image and realities of family life and the provision of care within families These themes are interconnected as the idea and image of family shapes familial structure which in turn defines the type of care and protection that families provide to their members The papers in this volume provide new research to challenge assumptions and provoke new ways of thinking about past families as functionally adaptive socially connected and ideologically powerful units of society just as they are in the present A broad focus on the networks created by familial units also allows the experiences of historically underrepresented women and children to be highlighted in a way that underlines their interconnectedness with all members of past societies The Family in Past Perspective builds a much needed bridge across disciplinary boundaries The wide scope of the book makes important contributions and informs fields ranging from bioarchaeology to women's history and childhood studies
