Screenwriting Andrew Horton, Julian Hoxter, 2014-08-23 Screenwriters often joke that no one ever paid a dollar at a movie theater to watch a screenplay Yet the screenplay is where a movie begins determining whether a production gets the green light from its financial backers and wins approval from its audience This innovative volume gives readers a comprehensive portrait of the art and business of screenwriting while showing how the role of the screenwriter has evolved over the years Reaching back to the early days of Hollywood when moonlighting novelists playwrights and journalists were first hired to write scenarios and photoplays *Screenwriting* illuminates the profound ways that screenwriters have contributed to the films we love This book explores the social political and economic implications of the changing craft of American screenwriting from the silent screen through the classical Hollywood years the rise of independent cinema and on to the contemporary global multi media marketplace From *The Birth of a Nation* 1915 *Gone With the Wind* 1939 and *Gentleman s Agreement* 1947 to *Chinatown* 1974 *American Beauty* 1999 and *Lost in Translation* 2003 each project began as writers with pen and ink typewriters or computers captured the hopes and dreams the nightmares and concerns of the periods in which they were writing As the contributors take us behind the silver screen to chronicle the history of screenwriting they spotlight a range of key screenplays that changed the game in Hollywood and beyond With original essays from both distinguished film scholars and accomplished screenwriters *Screenwriting* is sure to fascinate anyone with an interest in Hollywood from movie buffs to industry professionals **Script Culture and the American Screenplay** Kevin Alexander Boon, 2008-01-10 By considering the screenplay as a literary object worthy of critical inquiry this volume breaks new ground in film studies Though the history of the screenplay is as long and rich as the history of film itself critics and

scholars have neglected it as a topic of serious research Script Culture and the American Screenplay treats the screenplay as a literary work in its own right presenting analyses of screenplays from a variety of frameworks including feminism Marxism structuralism philosophy and psychology In distancing the text of screenplays from the on screen performance typically associated with them Kevin Alexander Boon expands the scope of film studies into exciting new territory with this volume Script Culture and the American Screenplay is divided into two parts Part 1 provides a general background for screenplay studies tracing the evolution of the screenplay from the early shot lists and continuities of George M li s and Thomas Harper Ince to the more detailed narratives of contemporary works Part 2 offers specific primarily thematic critical examinations of screenplays along with discussions of the original screenplay and the screenplay adaptation In all Boon explains that screenplay criticism distinguishes itself from traditional film studies in three major ways The primary focus of screenplay criticism is on the screenplay rather than the film the focus of screenplay studies is on the screenwriter rather than the director and screenplay criticism like literary criticism is written to illuminate a reader s understanding of the text Boon demonstrates that whether we are concerned with aesthetics and identifying rules for distinguishing the literary from the non literary or whether we align ourselves with more contemporary theories which recognize texts as distinguishable in their inter relationships and marked difference screenplays constitute a rich cache of works worthy of critical examination Film scholars as well as students of film creative writing and literary studies will appreciate this singular volume
