**Teaching Linguistically Handicapped Children** Mildred Freburg Berry, 1980      **Bilingualism and Language Disability** Niklas Miller, 2013-12-11      **Bilingualism and Language Disability (PLE: Psycholinguistics)** Nick Miller, 2013-11-12 Society is becoming increasingly multi lingual and this presents monolingual professionals particularly those in special education and speech pathology with severe problems Is the language delay in a child from a bilingual environment a result of this background or is there a specific speech problem Is a child s poor performance in school due to his problems of coping with two languages or does he need remedial teaching Originally published in 1984 this book is not concerned with second language learning but with speech and learning difficulties in bilingual children as they are presented to remedial teachers psychologists and speech therapists To this end the first group of specially written articles deals with the patterns of language usage in bilingual communities and the social and psychological factors which shape these patterns with processes in normal bilingual language acquisition and with the relationship between cognitive development and growing up with two languages Management issues and methods involved in helping children with language problems are also tackled they include taking case histories family liaison counselling bilingual programmes mother tongue teaching curriculum development and the training of personnel to work in the bilingual bicultural field This book provided a great deal of practical help in a field that was relatively new at the time of writing and helped to enlighten readers on the issues involved and assist in crystalising thought and directing future research      **Language Disorders And Intervention Strategies: A Practical Guide To The Teachers** G.Lokanadha Reddy, 2004 Contents Nature of Language and its Development Language Development Perspectives Theories and Models Assessment of Language Disorders Planning Language Intervention for Pre school and Schoolaged Children Language Intervention Approaches A Critical Evaluation Language Disorders and Special Population      *Language, Cognition, and Deafness* Michael Rodda, Carl Grove, 2013-08-21 First published in 1987 This book is intended as an introduction to the field of communication and deafness with particular reference to cognition and the various forms of language used by hearing impaired people It is aimed at an audience comprising teachers and student teachers of the deaf speech pathologists and students of speech pathology social workers and students of social work psychologists and students of psychology and to some extent the parents of deaf children and deaf people themselves It attempts to provide a concise summary of the topic and indeed as well as being for the audience just described it will be useful to anyone with an interest in the psychological sociological and linguistic ramifications of hearing loss      **Elementary School Teacher and Course of Study** , 1906      Teaching English Learners in Inclusive Classrooms Elva Duran, 2020-08-11 This newly revised text Teaching English Learners in Inclusive Classrooms updates and expands upon issues of great concern to those working with students who are English learners as well as having special learning challenges Given the unacceptable school drop out rates of these students this book provides practical tools and

strategies for educators to approach the unique learning needs of these students It draws upon the most current laws and research in the interconnected fields of bilingual and multicultural education language and literacy and special needs Additionally Dr Dur n draws upon her extensive experiences via classroom teaching university level instruction and textbook writing in these fields to present a highly useful compendium of ideas The range of chapters exemplifies the width and breadth of this material A sampling of these chapters include topics such as functional language teaching students with more extensive needs working with cross cultural and linguistic diverse students in the U S and Central America helping students with autism and includes information in the area of transition for mild moderate and students with more extensive needs There is also information as before on literacy and a chapter in the content subjects as it relates to social studies as well as a chapter on families of cross cultural students Many of the chapters look to use of direct instruction approaches that have proven to be successful strategies in addressing these educational areas Teachers and teacher trainers will find this clear well written text to be an invaluable resource in addressing the needs of myriad and unique students

Subject Cataloging Division, 1988 **Library of Congress Subject Headings** Library of Congress. Office for Subject Cataloging Policy, 1992 *Disorders of Articulation* Margaret Edwards, 2012-12-06 The title of this book may at first appear to be somewhat restrictive in its use of terminology However this is far from the intention of the writer on

the contrary the following chapters seek to reflect a departure from the traditional segmentally orientated approach to this type of disability Indeed one reason why the book has been written is the sense of frustration arising out of the largely ineffectual static and structural methodology of remedial work Alternative titles could have been Disorders of Speech Production or Neurogenic Speech Disorders but neither would have encapsulated the essence of the book Much of the recent research in the neurophysiology of motor control and also in the field of neurolinguistics has been concerned with ways in which intention and planning of movement is effected Such models are still in their infancy but it seems the potential value of their application to speech is considerable In the case of verbal dyspraxia for example we have long since in rather vague terms described it as a disorder of organization and programming without ever stating exactly what may be disorganized or not properly planned This book does not provide the answer for as yet there is insufficient data on which to work so that formulated theories may be tested and further defined But as we move from speculative guess work towards established fact so the likelihood grows of providing more positive help for those who suffer these drastic limitations in communication
