present volume addresses this gap and is the first of its kind to showcase recent initiatives that aim at introducing TEIL into ELT and teacher education in Germany but which have applicability and impact for other countries with comparable education systems and traditional ELT practices in the Expanding Circle. The chapters in this book provide a balanced mix of conceptual, empirical and practical studies and offer the perspectives of the many stakeholders involved in various settings of English language education whose voices have not often been heard: i.e. students, university lecturers, trainee teachers, teacher educators and in-service teachers. It therefore adds significantly to the limited amount of previous work on TEIL in Germany and bridges the gap between theory and practice that will not only be relevant for researchers, educators and practitioners in English language education in Germany but other educational settings that are still unaffected by the shift towards TEIL.
