Recommended Strategies of Teaching Reading Skills to Down Syndrome Children in Kindergarten Through Third Grade Ann L. Ostern, 1996

Reading and Writing Development for Children with Down Syndrome (11-16 Years) Gillian Bird, Sue Buckley, Down Syndrome Educational Trust, 2002 Reading skills are often a strength for teenagers with Down syndrome. Teenagers can often read at a higher level than would be predicted from their general cognitive and language abilities. Those who have not achieved reading success in their primary years may make significant progress during their teenage years. Reading and writing skills are important for everyday life and for access to the world of literature. They are also powerful tools for developing the speech and language of teenagers with Down syndrome and for mediating their cognitive development. Reading and writing can support communication, enable teenagers to achieve greater independence and enrich education and academic attainments across the curriculum. This module explains how language and literacy teaching can work together to promote the development of teenagers with Down syndrome. Guidance on teaching methods, expectations and examples of teenagers' work combine to show teachers and parents how to include teenagers in literacy learning programmes with an understanding of particular issues related to speech, language and memory development. This module should be read in conjunction with *Reading and Writing Development for Children with Down Syndrome (0-5 Years)* Gillian Bird, Sue Buckley, 2001. An overview DSii 07 01 as the overview provides important background information on how individuals learn to read, the adaptations that will help pupils with Down syndrome and the benefits of being involved in reading instruction.

Reading and Writing Development for Infants with Down Syndrome (0-5 Years) Gillian Bird, Sue Buckley, 2001

Children with Down's Syndrome Stephanie Lorenz, 2012-10-12 This practical handbook offers advice on strategies for meeting the special educational needs of children with Down's syndrome in mainstream schools. The aim is to increase the confidence of support assistants, teachers, SENCOs and senior managers in both primary and secondary schools in providing a quality education for these pupils while using scarce resources to best effect. The author offers an introduction to the particular characteristics of children with Down's syndrome and their impact on learning and behaviour. She considers the benefits of inclusive education and the most effective ways in which the National Curriculum can be made accessible. She also examines working with the whole school, parents and outside agencies as well as providing practical resources such as photocopiable proformas and checklists, materials for INSET in schools and support services and a list of reading materials. *Whole Child Reading* Natalie Hale, 2016-10-01 Discover the keys to teaching children and adults with Down syndrome and other developmental disabilities how to read with meaning. Written for today's busy parents and teachers, this easy-to-use guide explains how to go in through the heart to hook beginning and struggling readers. The methods in the book can be adapted for learners of any age who are reading at a third grade level or below. If you have at least five minutes a day to work on reading, you have enough time to get started using *Whole Child*.

Reading *A Reading and Language Intervention for Children with Down Syndrome* Kelly Burgoyne, Fiona Duff, Paula Clarke, Glynnis Smith, Sue Buckley, Margaret Snowling, Charles Hulme, 2016 [Speech and Language Intervention in Down Syndrome](#) Jean Rondal, Susan Buckley, 2003-06-02 This text provides speech and language therapists and language researchers with a state of the art review covering all aspects of speech and language development in individuals with Down syndrome Written by leading experts in the field it includes chapters on the principles which should guide intervention prelinguistic development pragmatics and communication literacy and language augmentative communication intervention with adolescents and adults maintenance of skills for older adults and a perspective on pertinent issues Each chapter summarizes research and provides guidelines for effective interventions This book should be a valuable guide to those working in the field who wish to be able to provide evidence based interventions for individuals with Down syndrome and to contribute to their quality of life by improving their communication skills

Psychopathology of Childhood and Adolescence Andrew S. Davis, 2012-12-20 Print CourseSmart [Teaching Reading and Phonics to Children with Language and Communication Delay](#) Charlotte Lynch, 2018-05-08 Teaching Reading and Phonics to Children with Language and Communication Delay is an accessible and jargon free book full of practical ideas for teaching the first stages of reading and phonics to children who have speech and language delay Written by a bestselling author this invaluable toolkit covers approaches to the teaching of reading for a variety of needs so that no child is left behind Features include a wide range of practical activities useful checklists at the end of each chapter for assessing progress and further planning links to example photo books to demonstrate how reading can be personalised and interactive tips for teaching reading and motivating children in their learning template material which can be photocopied and downloaded as eResources Packed with helpful illustrations and examples that can be used in lessons this book offers a variety of methods of teaching reading including an emphasis on visual strategies which are well suited to children with language delay and complex communication needs Clear explanations and step by step instructions mean the book can be used by parents as well as non specialist teachers and teaching assistants and the book will be ideal reading for any educators working with young children to improve their literacy
