

And Jesus, walking by the sea of Galilee, saw two brethren, Simon called Peter, and Andrew his brother, casting a net into the sea; for they were fishers.

And he saith unto them, Follow me, and I will make you fishers of men.

And they straightway left their nets, and followed him.

Reverence for Life Albert Schweitzer, 1979 Though I was well aware that Albert Schweitzer preached a great deal both before and after he became a physician I never encountered any of his sermons until I was privileged to read the present collection prior to publication What I find in this increases my sense of wonder though it does not increase my surprise It pleases me to find that like other speakers and writers the famous missionary doctor preached many of his ideas before they were cast into essay form thus following the experimental method On the whole the sermons seem contemporary Very early in the twentieth century he understood that Christianity is not a merely spiritual religion and that the popular arguments against missions are superficial ones What pleases me most about

the new publication is its revelation of the author's deep personal piety D Elton Trueblood from the Foreword **The Teaching of Reverence for Life. Translated From the German by Richard and Clara Winston** Albert Schweitzer, 1965

The Way of Torah and the Path of Dharma Daniel F. to Life Keeping Faith with the Psalms and Talking About God Exploring the Meaning of Religious Life with Kierkegaard Buber Tillich and Heschel He serves on the editorial board of The Journal of Reform Judaism and of Current Dialogue published by the World Council of Churches Life and Moral Education in Greater China John Chi-Kin Lee, Stephen Yam-wing Yip, Raymond Ho-Man Kong, 2021-03-30 Arguing for life moral and values education as a bedrock for the original goals of school education this monograph explores how life and values education is conceptualised and imparted in Greater China Under a globalized transnational and technological world where there has been an increase in people's mobility in information and cultural exchanges there is also a growing emphasis on personal and professional ethics Against this context life moral and values education has gained attention for its impact on shaping students' characters as future citizens However the cultivation of these values is made deeply diversified and complex by varying interpretations of life education and values education across societies given that different societies are influenced by different socio-cultural traditions educational ideologies and religious beliefs The means and approaches towards life education also vary vastly from formal school subjects school-based programmes as well as teachers and peers role modelling community services extra-curricular activities school discipline charity work pastoral care and school ethos Recognising this inherent diversity and complexity in the approach to and the dissemination of life education the contributors to this volume survey the practice of life education in Greater China so far suggesting that life education is most effective when it is diversified dynamic and developmental across contexts This book will provide the opportunity for engaging in important and serious debates about the future and the values that will underpin it and will prove of special interest to scholars and practitioners working on education policies curriculum development and teacher education in Greater China *The legacies of Albert Schweitzer reconsidered* Izak J.J. Spangenberg, Christina Landman, Amadi Enoch Ahiamadu, Johan Booyse, Pieter Botha, Cornel du Toit, Garth Mason, Menard Musendekwa, Eben Scheffler, Lovemore Togarasei, Andries van Aarde, 2016-12-31 This book on the legacy of Albert Schweitzer contextualises this remarkable intellectualist humanist medicine man theologian and Nobel Prize winner This collected work is aimed at specialists in the humanities social sciences education and religious studies The authors embrace philanthropic values to benefit Africa and the world at large The publication engages with peers on the relevance of Schweitzer's work for humanitarian values in Africa The essays in the book stimulate further research in the various fields in which Schweitzer excelled Its academic contribution is its focus on the post-colonial discourse in contemporary discussions both in South Africa and Africa at large The book emphasises Schweitzer's reverence for life philosophy and demonstrates how this impacts on moral values However the book also points to the possibility that Schweitzer's reverence for life philosophy is embedded in a typically European appreciation of mysticism that is not commensurate with African indigenous religious values From an African academic perspective the book advocates the view that Schweitzer's concept of the reverence for life supports not only the Biblical notion of imago Dei but also the African humanist values of the preservation and protection of life criticising

the exploitation of the environment by warring factions and large companies especially in oil producing African countries It also argues that Schweitzer s disposition on ethics was influenced by the Second World War his sentiments against nuclear weapons and his resistance to the Enlightenment view of civilisation With regard to Jesus studies the book elucidates values promoted by Schweitzer by following in Jesus steps and portraying Jesus message within a modern world view Taken over from Schweitzer the book argues that Jesus moral authority resides in his display of love and his interaction with the poor and marginalised The book demonstrates Schweitzer s understanding of Jesus as the one who sacrifices his own life to bring the Kingdom of God to realisation in this world The book commends Schweitzer s insight that we know Jesus through his toils on the one hand and through our own experiences on the other It is in a mixture between the two that the hermeneutical gap between then and now is bridged It is precisely in bridging this gap that Schweitzer sees himself as an instrument of God s healing It defines Schweitzer as the embodiment of being a healer educationalist and herald of the greening of Christianity His philosophy on the reverence for life prepares a foundation for Christians to think green about human life within a greater environment He advocates aspects of education such as lifelong learning holistic education and a problem based approach to education Finally the book analyses both critically and appreciatively Albert Schweitzer s contribution to the concepts of religious healing prevalent in African Christianity today

Improving Teaching and Learning in the Humanities Martin Ashley,2012-10-12 Focuses on religious education history geography and cross curricular planning in the primary school It includes discussion of the purpose of education and how the humanities fit with this purpose with particular reference to the 1998 Education Act and 1994 National Curriculum Review The book deals with the themes of time place values communication responsibilities and decision making These link the chapters and are fully complemented with case studies For each concept there are suggestions for practical classroom activities The reader will find the book invaluable in integrating the subjects across the National Curriculum
