Case For Make Believe Susan Linn, 2009-07-01 In *The Case for Make Believe* Harvard child psychologist Susan Linn tells the alarming story of childhood under siege in a commercialized and technology saturated world. Although play is essential to human development and children are born with an innate capacity for make believe, Linn argues that in modern day America nurturing creative play is not only countercultural, it threatens corporate profits. A book with immediate relevance for parents and educators alike, *The Case for Make Believe* helps readers understand how crucial child's play is and what parents and educators can do to protect it. At the heart of the book are stories of children at home, in school, and at a therapist's office playing about real life issues from entering kindergarten to a sibling's death, expressing feelings they can't express directly and making meaning of an often confusing world. In an era when toys come from television and media companies sell videos as brain builders for babies, Linn lays out the inextricable links between play, creativity, and health, showing us how and why to preserve the space for make believe that children need to lead fulfilling and meaningful lives. *Educational Research and Innovation Languages in a Global World Learning for Better Cultural Understanding* OECD, 2012-04-24 This book examines the links between globalisation and the way we teach and learn languages.

The Crisis Manual for Early Childhood Teachers Karen Miller, 1996 This is the book that covers the really tough problems teachers face: divorce, death, abuse, AIDS, violence, illness, and more.

Kids Working It Out Tricia S. Jones, Randy Compton, 2002-12-03 Kids who understand how to manage conflict successfully can transform their schools into safer and kinder places to learn. *Kids Working It Out* offers educators and parents a guide to the most current and effective school-based conflict resolution programs and shows how these programs can make a positive difference in our schools. Throughout the book, students and teachers share their stories of what it's really like in today's schools and reveal how Conflict Resolution Education has shaped their experiences. *Kids Working It Out* covers a wide range of topics: curriculum integration, peer mediation, restorative justice, and others, and shows what it takes to implement an effective program in any school and any community.
