S. Nott, 2017-05-12 About this book This is a first hand account of a disillusioned young man who having travelled round the world studying various ways and religions finally meets Gurdjieff in New York and is convinced by seeing the demonstrations of sacred dances that at last he has found the Way he is looking for The book compiled from hundreds of pages of notes and diaries is a record of sayings and doings of Gurdjieff and their impact on the young pupil at that time It has also a description of life at the Chateau du Prieure as experienced by the pupil The journal is not an exposition of the theory of the Gurdjieff system it is rather an account of the cumulative effect on one person of practical work in an authentic esoteric school Note C S Nott's sequel Further Teachings of Gurdjieff Journey Through This World and his translation of Conference of the Birds are also available in Kindle format from Toward Publishing Basic information about Gurdjieff Gurdjieff was born in Armenia around 1870 His first tutor was a priest and he also received a scientific education in surroundings and a way of life that had changed little for centuries To his questions Who am I Why am I here he found no answer either in religion or in science but suspected that the truth lay hidden behind what had come down from the past in religious traditions and those strange myths and legends which he learned from his father a traditional bard or ashokh With inspired like minded companions he set out to find in Asia and Africa the truth he sought learning many languages and acquiring many practical skills to earn the money for his journeys In 1912 he brought to Moscow an unknown teaching a teaching that was neither a religion nor a philosophy but a practical teaching to be lived He called this teaching The Fourth Way To follow the way he proposed nothing is to be believed until verified by direct experience and life in the world is not to be renounced It is a way in life on which gradually for it cannot be done all at once everything has to be questioned one's beliefs assumptions attitudes one's whole outlook on the life of man on this Earth Man is asleep said Gurdjieff he has no real consciousness or will He is not free to him everything happens He can become conscious and find his true place as a human being in the creation but this requires a profound transformation Gurdjieff calls us to awaken telling us Man's possibilities are very great You cannot even conceive a shadow of what man is capable of attaining But nothing can be attained in sleep In

the consciousness of a sleeping man his illusions his dreams are mixed with reality He lives in a subjective world and he can never escape from it And this is the reason why he can never make use of all the powers he possesses and why he lives in only a small part of himself *Journeys and Destinations* Alex Norman,2013-07-16 Journeys and Destinations Studies in Travel Identity and Meaning brings together scholarship from diverse fields all focused on either practices of journeying or destinations to which such journeys lead Common across the contributions herein are threads that indicate travel as a core component as a concept or a practice of the fabric of identity and meaning Gurdjieff: The Key Concepts Sophia Wellbeloved,2013-04-15 This unique book offers clear definitions of Gurdjieff s teaching terms placing him within the political geographic and cultural context of his time Entries look at diverse aspects of his Work including possible sources in religious Theosophical occult esoteric and literary traditions the integral relationships between different aspects of the teaching its internal contradictions and subversive aspects the derivation of Gurdjieff s cosmological laws and Enneagram the passive form of New Work teaching introduced by Jeanne de Salzmann Journey Through this World Charles S. Nott, 1978 *Masters Speak* Seymour B. Ginsburg, 2014-04-01 If you want to pursue in a Western way the path that we follow here at Mirtola you need to study and work with the Gurdjieffian teaching Thus did the guru Madhava Ashish at their first meeting invite American businessman Sy Ginsburg on a spiritual journey that would last 19 years until the guru s death and include both annual visits to Sri Madhava Ashish s Mirtola ashram near Almora in India s Himalayan foothills and a lengthy correspondence Along the way the entrepreneur author would not only be caught up in the teachings of G I Gurdjieff but also in the search for the elusive unitive vision the world viewed from the perspective of the greater Self and not the personality In this remarkable spiritual document the reader shares the search increasingly catching glimpses of the unitive vision as the book draws toward a close that is also an opening out into the vaster dimensions of the human mind **Occultism in a Global**

Perspective Henrik Bogdan, Gordan Djurdjevic, 2014-09-11 The study of the ideas and practices associated with occultism is a rapidly growing branch of contemporary scholarship. However, most research has focused on English and French speaking areas and has not addressed the wider spread and significance of occultism. *Occultism in a Global Perspective* presents a broad international overview. Essays range across the German magical order of the Fraternitas Saturni, esoteric Satanism in Denmark, sexual magic in Colombia and the reception of occultism in modern Turkey, India and the former Yugoslavia. As any other form of cultural practice, the occult is not isolated from its social, discursive, religious and political environment. By studying occultism in its global context, the book offers insights into the reciprocal relationships that colour and shape regional occultism.

The Gurdjieff Movements Wim van Dullemen, 2018-05-17 Scores of books exist about the life and teachings of the Russian spiritual visionary G. I. Gurdjieff, 1866-1949, yet few devote significant coverage to the Gurdjieff Movements. These several hundred precise and mostly asymmetrical gestures arranged into detailed choreographies for groups of practitioners were designed by Gurdjieff himself. This new book reconsiders the eminent role of the Movements, revealing them as a vital yet often neglected component in the transmission of Gurdjieff's legacy. Van Dullemen, whose first Movements teacher received her instruction from Gurdjieff himself, is in a unique position to offer background theory and first-hand experience about this subject. He is a professional musician and a long-time practitioner of the Gurdjieff work who trained in these Movements and served as a master accompanist for the practice for over thirty years. No book can teach the Movements; the author clearly asserts. And he makes no such attempt here. Far from an instruction manual, *The Gurdjieff Movements: A Communication of Ancient Wisdom* offers invaluable insight into and greater understanding of the whys and wherefores of this fourth arm of the vast teaching that comprises Gurdjieff's complete communication: his books, his oral teachings, his music, and finally his Movements. Along with fascinating stories of his own journey of discovery, van Dullemen has skillfully integrated autobiographical descriptions of the master Gurdjieff, interviews with direct pupils of Gurdjieff, diligent research within a wide range of firsthand sources, descriptions of the scientific, cultural and social climate during Gurdjieff's time, and the relationship between these and his teaching. The book is also a rare accomplishment. While highly authoritative, it is nonetheless written in a direct style with clear language, making it accessible to the public at large who may have interest but little background in this esoteric science and practice.

Intentional Transformative Experiences Sarah Perez, Bastiaan van Rijn, Jens Schlieter, 2024-09-23 This book offers new theoretical insights into religious, esoteric and philosophical practices and narratives that deal with intentional transformative experiences. Exceptional, life-changing experiences are often believed to be beyond the individual's control; they are thought to simply happen. However, many individuals actively and self-reflectively search for transformative experiences. *Intentional Transformative Experiences* provides analyses of such intentionally sought experiences in different spiritual, religious and esoteric milieus. Case studies range from South and Central Asian traditions to Western esoteric practices, compare autobiographical narratives of self

cultivation and explore attempts to systematize intentional transformative experiences Next to applying established theoretical frameworks such as the cognitive science of religion and philosophy this volume also includes considerations on subsets of transformative experiences such as the dichotomy of intentionality and unintentionality risk and failure as well as the transformation of others instead of one s own self The result is an important contribution for researchers who deal with narratives or practices that include transformative experiences
