Davis, 2001-06-01 *Society and the Supernatural in Song China* is at once a meticulous examination of spirit possession and exorcism in the twelfth and thirteenth centuries and a social history of the full panoply of China's religious practices and practitioners at the moment when she was poised to dominate the world economy Although the Song dynasty 960-1276 is often identified with the establishment of Confucian orthodoxy Edward Davis demonstrates the renewed vitality of the dynasty's Taoist Buddhist and local religious traditions He charts the rise of hundreds of new temple cults and the lineages of clerical exorcists and vernacular priests the increasingly competitive interaction among all practitioners of therapeutic ritual and the wide social range of their patrons and clients **Religions of China in Practice** Donald S. Lopez, Jr., 2021-08-10 This third volume of Princeton Readings in Religions demonstrates that the three religions of China Confucianism Daoism and Buddhism with a fourth folk religion sometimes added are not mutually exclusive they overlap and interact with each other in a rich variety of ways The volume also illustrates some of the many interactions between Han culture and the cultures designated by the current government as minorities Selections from minority cultures here for instance are the folktale of Ny Dan the Manchu Shamaness and a funeral chant of the Yi nationality collected by local researchers in the early 1980s Each of the forty unusual selections from ancient oracle bones to stirring accounts of mystic visions is preceded by a substantial introduction As with the other volumes most of the selections here have never been translated before Stephen Teiser provides a general introduction in which the major themes and categories of the religions of China are analyzed The book represents an attempt to move from one conception of the Chinese spirit to a picture of many spirits including a Laozi who acquires magical powers and eventually ascends to heaven in broad daylight the white robed Guanyin one of the most beloved Buddhist deities in China and the burning mouth hungry ghost The book concludes with a section on earthly conduct *The Lady of Linshui Pacifies Demons*, 2021-02-15 The Lady of Linshui the goddess of women childbirth and childhood is still venerated in south China Taiwan and Southeast Asia Her story evolved from the life of Chen Jinggu in the eighth century and blossomed in the Ming dynasty 1368-1644 into vernacular short fiction legends plays sutras and stele inscriptions at temples where she is worshipped The full length novel *The Lady of Linshui Pacifies Demons* narrates Chen Jinggu's lifelong struggle with and eventual triumph over her spirit double and rival the White Snake demon Among accounts of goddesses in late imperial China this work is unique in its focus on the physical aspects of womanhood especially the dangers of childbirth and in its dramatization of the contradictory nature of Chinese divinities This unabridged annotated translation provides insights into late imperial Chinese religion the lives of women and the structure of families and local society *The Daoist Tradition* Louis Komjathy, 2013-08-22 An introduction to Daoism as a living and lived religion covering key themes and topics as well as its history *History and Magical Power in a Chinese Community* P. Sangren, 1987-09-01 This book is a case study of history and culture in the Taiwanese town of Ta-chi and the

group of rural villages that constitute its standard marketing community. However its scope exceeds that of most community studies. The author attempts to construct a holistic view of Chinese culture from an analysis of the relationship between history and ritual in a particular locality. The author argues that social institutions and collective representations are dialectically connected in the process of social and cultural reproduction. He describes this dialectical process through an analysis of the key cultural concept of *ling*, the magical power attributed to ghosts, gods, and ancestors. In analyzing the symbolic logic of *ling*, he asserts that it can be fully understood only as a product of the reproduction of social institutions and as a manifestation of a native historical consciousness. Structuralist and Marxist insights are combined to explain how *ling* is best understood as both a cultural logic of symbolic relations and a material logic of social relations. The book is in three parts. Part I is a social and economic history that outlines what one might call an objectivist or positivist view of Taiwan's history, describing events as they were regardless of the perceptions of local participants. This material is a background to the synchronic sociological analysis of local territorial cults that constitutes Part II. In Part III, the author unsettles the objectivist assumptions of Part I by showing how the idiom of *ling* underlies Taiwanese constructions of history and identity and how the cultural construction of history dialectically reproduces society and creates history. The book is illustrated with 8 pages of photographs, 17 line drawings, and 9 maps.

The Donghak Concept of God/heaven Kiyul Chung, 2007. This bibliography is the culmination of four years' work by a team of noted scholars; its annotated entries are organized by religious tradition and cover each tradition's central concepts, offering a judicious selection of primary and secondary works as well as recommendations of cross-cultural topics to be explored. Myth and Meaning in Early Taoism N. J. Girardot, 1988. *Myth and Meaning in Early Daoism* examines some of the earliest texts associated with the Daoist tradition, primarily the *Daode jing*, *Zhuangzi*, and *Huainanzi*, from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the mythological symbolism of *hundun*, the primal chaos, being and principle that is foundational for the philosophy and practice of the Dao as *creatio continua* in cosmic, social, and individual life. Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive perspective, this work, when it was written, challenged many prevailing conceptions of the *Daode jing* and *Zhuangzi* as primarily philosophical texts without any religious significance or affinity with the later sectarian traditions. While controversial and at times playfully provocative, the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world.

The Qing Dynasty and Traditional Chinese Culture

Richard J. Smith, 2015-10-23. The Qing dynasty 1636-1912, a crucial bridge between traditional and modern China, was remarkable for its expansiveness and cultural sophistication. This engaging and insightful history of Qing political, social, and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions. Noted historian Richard J. Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces, particularly Manchu, Mongolian, Central Asian, and Tibetan, to subjects in other parts of their vast multicultural empire. They were attracted by many aspects of Chinese culture but far from being completely sinicized, as many scholars argue, they were also proud of their own cultural traditions and interested in other cultures as well. Setting Qing dynasty culture in historical and global perspective, Smith shows how the Chinese of the era viewed the world, how their outlook was expressed in their institutions, material culture, and customs, and how China's preoccupation with order, unity, and harmony contributed to the civilization's remarkable cohesiveness and continuity. Nuanced and wide-ranging, his authoritative book provides an essential introduction to late imperial Chinese culture and society.

Religious Reflections on the Human Body

Jane Marie Law, 1995-02-22. It provides imaginative and thought-provoking coverage of the ways in which religious thought and practice construct understandings of the human body. *Journal of Asian Studies*. Drawing on a remarkably diverse set of studies discussing the major Western religious traditions, including Islam, and East and South Asian traditions, the book challenges easy theorization of the body in religion. An excellent source book for college-level comparative religion courses. Bruce Mannheim, University of Michigan. An important study that should be of considerable interest to the general student of the history and phenomenology of religions. *Muslim World Book Review*. The first cross-cultural and interdisciplinary survey on the relationship between religious practice and ideology and the human body.

Dream Trippers

David A. Palmer, Elijah Siegler, 2017-11-27. Over the past few decades, Daoism has become a recognizable part of Western alternative spiritual life. Now that Westernized version of Daoism is going full circle, traveling back from America and Europe to influence Daoism in China. *Dream Trippers* draws on more than a decade of ethnographic work with Daoist monks and Western seekers to trace the spread of Westernized Daoism in contemporary China. David A. Palmer and Elijah Siegler take us into the daily life of the monastic community atop the mountain of Huashan and explore its relationship to the socialist state. They follow the international circuit of Daoist energy tourism, which connects a number of sites throughout China, and examine the controversies around Western scholars who become practitioners and promoters of Daoism. Throughout are lively portrayals of encounters among the book's various characters: Chinese hermits and monks, Western seekers, and scholar-practitioners as they interact with each other in obtuse

often humorous and yet sometimes enlightening and transformative ways Dream Trippers untangles the anxieties confusions and ambiguities that arise as Chinese and American practitioners balance cosmological attunement and radical spiritual individualism in their search for authenticity in a globalized world Living Authentically: Daoist Contributions to Modern Psychology Livia Kohn, 2011 Living Authentically brings together classical scholars of Daoism professors of psychology practicing psychologists medical doctors and alternative practitioners to explore different Daoist concepts of the mind and its transformations in relation to various schools of modern psychology The book explores how Daoism can help us live in the world sustaining relationships and educating children in a stress free truly authentic way Book jacket
