Six Stages on the Spiritual Path Ruth Whitney, 2021-05-21 In *Six Stages on the Spiritual Path* we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love. Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving. In the first stage on the mystic way, children experience awe and wonder but they do not realize that this is a spiritual experience. While all indigenous people recognize awe as a mystical experience, only some adults and most artists do. When parents and religious leaders teach children about God, they cause their spiritual growth to flourish or to become stunted at an elementary school level. Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us. Awakening produces love for our neighbors and ourselves. Then love nurtures more awakenings. Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation but also that we are within the ONE. Illumination creates more love for all people and all the universe.

The Three-Petalled Rose Ronald W. Pies, 2013-01-29 This is a book for anyone who wants to live the good life but who has not yet found a clear path to that goal. By examining the common threads that unite three great spiritual traditions—Judaism, Buddhism, and Stoicism—the author provides a framework for achieving a fulfilled and ethically responsible life. The author helps the reader take the spiritual nutrients from these three ancient traditions and transform them into a life of beauty, order, and purpose. Encountering Religious Pluralism Harold Netland,2001-08-14 Harold Netland traces the emergence of the pluralistic ethos that challenges Christian faith and mission interacting heavily with philosopher John Hick and providing a framework for developing a comprehensive evangelical theology of religions The Puzzle of Ethics Peter Vardy,2016-07-01 First Published in 1994 Is there such a thing as right and wrong Are some codes of behaviour more justified than others Is it foolish to believe in moral principles Is virtue just a quaint Victorian term and does anyone care in any case The Puzzle of Ethics tackles these formidable questions and many more in a clear and easy to understand manner without every becoming superficial Throughout the approaches of major philosophers are explained and specific issues are addressed including Just War theory situation ethics abortion euthanasia as well as Buddhist Hindu and Islamic ethics This challenging book is of considerable relevance dealing as it does with the central areas of ethical concern in today s world It is the ideal introduction to the field for students **But Not Philosophy** George Anastaplo,2002-01-01 Gathered in this one volume But Not Philosophy provides useful and thought provoking introductions to seven major schools of non Western thought Mesopotamian ancient African Hindu Confucian Buddhist Islamic and North American Indian Anastaplo studies ancient literary epics and legal codes and examines religious traditions and systems of thought providing detailed references to authoritative histories and commentators *Hope for a Global Ethic* Brian D. Lepard,2005 In a groundbreaking book that calls on the world s religions to look at what they have in common author and scholar Brian Lepard offers hope to a world community that has become dangerously fractionalized by economic social religious and political differences In Hope for a Global Ethic Lepard cogently argues that different societies have much more in common than they might otherwise think beginning with a profound historic and lasting belief in religion and that our fearful and often suspicious view of other people may be overcome by exploring what is shared in these religions Hope for a Global Ethic moves significantly beyond ideology to discuss the values that all people have shared through the faiths of the world It is these values that offer hope in our fearful disordered and terrorized world *Death and Religion in a Changing World* Kathleen Garces-Foley,2006 Looking at how religious people approach death in the twenty first century this is a comprehensive study of the intersection of death and religion It describes how people from a variety of faiths draw on and adapt traditional beliefs and practices as they deal with death in modern societies
