Touching on some of society's most sensitive topics, this anthology also captivates readers with deep thoughts and moving insights about daily human encounters and life's biggest questions. City Lights Noah Hayden, 2014-12-03 After devoting a whole year to daily writing and digging into the word of God, I have put together 365 practical devotions for all to read. I have had a passion for writing ever since I was little, and now more than ever, God is making that a reality. By His grace, I have been equipped with a platform to share the goodness of His word with all that are willing to listen. My heart is to see you grow just as I am growing daily in my relationship with the Lord, but I also desire that you too would take your own steps in becoming a light to the city around you, using whatever talents and gifts God has given you.

The Great American Stickup Robert Scheer, 2010-09-07 In *The Great American Stickup*, celebrated journalist Robert Scheer uncovers the hidden story behind one of the greatest financial crimes of our time: the Wall Street financial crash of 2008 and the consequent global recession. Instead of going where other journalists have gone in search of this story—the board rooms and trading floors of the big Wall Street firms—Scheer goes back to Washington, D.C., a veritable crime scene beginning in the 1980s where the captains of the finance industry, their lobbyists, and allies among leading politicians destroyed an American regulatory system that had been functioning effectively since the era of the New Deal. This is a story largely forgotten or overlooked by the mainstream media, who wasted more than two decades with their boosterish coverage of Wall Street. Scheer argues that the roots of the disaster go back to the free market propaganda of the Reagan years and most damagingly to the bipartisan deregulation of the banking industry undertaken with the full support of progressive Bill Clinton. In fact, if this debacle has a name, Scheer suggests it is the Clinton Bubble, that era when the administration let its friends on Wall Street write legislation that razed decades of robust financial regulation. It was Wall Street and Democratic Party darling Robert Rubin, along with his clique of economist super friends Alan Greenspan, Lawrence Summers, and a few others who inflated a giant real estate

bubble by purposely not regulating the derivatives market resulting in the pain and hardship millions are experiencing now The Great American Stickup is both a brilliant telling of the story of the Clinton financial clique and the havoc it wrought informed by whistleblowers such as Brooksley Born who goes on the record for Scheer and an unsparing anatomy of the American business and political class It is also a cautionary tale those who form the nucleus of the Clinton clique are now advising the Obama administration
