*The Changing Urban School* Robert  
 Thornbury, 2012-05-04 The author takes a long look at what goes on in schools and the roles played by people specifically  
 concerned with them but finally the problems of the school are seen as indissolubly bound up with the changes that have  
 overtaken urban life The school cannot be isolated teachers administrators planners and parents must actively co operate in  
 making the school work in society and a society which works for the school Nothing other than such a total vision he  
 concludes will enable us to achieve normal educational goals Robert Thornbury writes out of fifteen years experience of the  
 urban school and of the problems not only of Britain but also those sometime similar often more acute of other countries in  
 particular the United States and Australia The need for a total urban strategy is worldwide His point of view is broad based  
 but his sympathies lie most of all with the hard working teacher who stayed on in the urban classroom It is a book for  
 teachers therefore but also by its own argument for all concerned with the future of the inner city and the reordering of  
 education *Daily Mirror* Holborn Circus, 1975-07-23
