Skepticism And The Basis Of Morality New Perspectives In Philosophical Scholarship Texts And Issues:

Forthcoming Books Rose Army,2003 Critical Perspectives on Global Literacies Shea N. Kerkhoff,Hiller A.

Spire,2023-05-05 This book offers critical perspectives on global literacies connecting research theory and practice An emerging concept in the literacy field many scholars agree on the need for students to develop global literacies yet few agree on a widely accepted definition Based on a synthesis of the literature the editors formulate a definition of global literacies with four dimensions including literacy as a human right in all nations around the world critical reading and creation of multimodal texts about global issues intercultural communication and reciprocal collaboration with globally diverse others and transformative action for social and environmental justice that traverses borders Taking this shared proposed definition as a starting point the chapters then offer contextualized examples of global literacies from K 12 and teacher education classrooms to make explicit links between research and practice The contributors interact with and interrogate the book's definition of global literacies using a common framework of critical theory As such this book provides both emerging and established scholars with critical frameworks for positioning global literacies in ways that are relevant dynamic and forward thinking *Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen*

Veröffentlichungen ,1996 **Ethics and Literary Practice** Adam Zachary Newton,2021-09-09 This volume draws together a diverse array of scholars from across the humanities to formulate and address the question of ethics and literary practice for a new decade In taking up a conjunction whose terms remain productively open to question fifteen essays survey a range of approaches and topics including genre and disciplinary rhetoric emergence theory and literary signification the ethics of alterity of attention and of aesthetics the decolonial and the paracritical neorealism and contingency analogy and affect scripture and national literature From Seamus Heaney to Hannah Arendt Teresa Brennan to Stanley Cavell Ronit Matalon to douard Glissant Uwe Timm to Katherena Vermette Notes for Echo Lake to the Gospel of St Matthew these contributions demonstrate how broadly and fruitfully ramifying its organizing inquiry can be Bringing such multifarious perspectives to the topic feels only more urgent as language meaning and expression enter the crucible of a post truth era **The Culture of**

Language in Ming China Nathan Vedal,2022-04-13 Winner 2023 Morris D Forkosch Prize Journal of the History of Ideas The scholarly culture of Ming dynasty China 1368 1644 is often seen as prioritizing philosophy over concrete textual study Nathan Vedal uncovers the preoccupation among Ming thinkers with specialized linguistic learning a field typically associated with the intellectual revolution of the eighteenth century He explores the collaboration of Confucian classicists and Buddhist monks opera librettists and cosmological theorists who joined forces in the pursuit of a universal theory of language Drawing on a wide range of overlooked scholarly texts literary commentaries and pedagogical materials Vedal examines how Ming scholars positioned the study of language within an interconnected nexus of learning He argues that for sixteenth and seventeenth century thinkers the boundaries among the worlds of classicism literature music cosmology and

religion were far more fluid and porous than they became later In the eighteenth century Qing thinkers pared away these other fields from linguistic learning creating a discipline focused on corroborating the linguistic features of ancient texts Documenting a major transformation in knowledge production this book provides a framework for rethinking global early modern intellectual developments It offers a powerful alternative to the conventional understanding of late imperial Chinese intellectual history by focusing on the methods of scholarly practice and the boundaries by which contemporary thinkers defined their field of study **Heaven and Earth Are Not Humane** Franklin Perkins,2014-05-23 That bad things happen to good people was as true in early China as it is today Franklin Perkins uses this observation as the thread by which to trace the effort by Chinese thinkers of the Warring States Period c 475 221 BCE a time of great conflict and division to seek reconciliation between humankind and the world Perkins provides rich new readings of classical Chinese texts and reflects on their significance for Western philosophical discourse *A Philosophy of the Christian Religion* Nancey Murphy,2018-10-30 Each field of study comes with its own set of questions each period of time refines and redirects those questions The Christian religion as we find it in the twenty first century presents a unique set of problems to be solved and questions to be answered In this introduction to the philosophy of the Christian religion eminent philosopher and theologian Nancey Murphy applies the tools of philosophical analysis to a set of core yet contemporary religious questions what does our historical moment mean for the possibility of knowing God Is faith still possible Does God intervene in human history Is there such a thing as universal knowledge of God Written with the needs of students encountering the philosophy of religion for the first time in mind this book provides a comprehensive introduction to the fundamental questions inherent in Christian faith Murphy also provides tools for how to answer those questions **The Riddle of Hume's Treatise** Paul Russell,2010-06-15 It is widely held that Hume's Treatise has little or nothing to do with problems of religion Contrary to this view Paul Russell argues that it is irreligious aims and objectives that are fundamental to the Treatise and account for its underlying unity and coherence American Journal of Philology ,2000 **Book Review Digest** ,1995
