The cultural & heritage guide for Saudi Arabia ,2025-09-24 *Arabia Felix* Thorkild Hansen,2017-06-13 A riveting account of a landmark expedition that left only one survivor now back in print for the first time in decades Arabia Felix is the spellbinding true story of a scientific expedition gone disastrously awry On a winter morning in 1761 six men leave Copenhagen by sea a botanist a philologist an astronomer a doctor an artist and their manservant an ill assorted band of men who dislike and distrust one another from the start These are the members of the Danish expedition to Arabia Felix as Yemen was then known the first organized foray into a corner of the world unknown to Europeans The expedition made its way to Turkey and Egypt by which time its members were already actively seeking to undercut and even kill one another before disappearing into the harsh desert that was their destination Nearly seven years later a single survivor returned to Denmark to find himself forgotten and all the specimens that had been sent back ruined by neglect Based on diaries notebooks and sketches that lay unread in Danish archives until the twentieth century Arabia Felix is a tale of intellectual rivalry and a comedy of very bad manners as well as an utterly absorbing adventure Arabia Felix includes 33 line drawings and maps
