

Bee-eaters (bird study)

- love the vibrancy of the colors really like the colors of the birds
- but the painting looks too good if that's even better than the real thing
- love the way the colors are so bright and vibrant
- maybe a little more detailed around the head and neck could have made it even better

the only reason for the black back was...

- maybe should have used black for the beak instead of the red but also that the wing is chestnut over the chestnut red

- loves the colors of the feathers
- the second one and every the third one also very like the master but want to keep on with to see how the one over the one
- in year old you can give it...

- more but the last one so this one is better but that's the last one

kindly a favorite one study
