Skills Of Helping Indiv Fam Text:

The Skills of Helping Individuals, Families, Groups and Communities Lawrence Shulman, 1999 This text focuses on the skills social workers use in the helping process. It defines, illustrates, and teaches helping skills and provides manageable models for understanding them. The book also looks at the underlying process and its associated set of core skills. A range of helping situations are addressed so that social workers can find useful models to incorporate into their own work. The core processes and skills are identified in the chapters on work with individuals and reappear in the discussions of group, family, and community work.

Journal of Character Education Marvin W. Berkowitz, Jonathan M. Tirrell, 2023-12-01 The Journal of Character Education is the leading source of cutting edge knowledge about character education research, theory, practice, and opinion. We define character education broadly to encompass all educational approaches designed to nurture students' knowledge, motivation, skills, and behavior concerning all four aspects of character: moral, performance, civic, and intellectual. The Journal publishes manuscripts that report research relevant to character education, conceptual articles, and book reviews that provide theoretical, historical, and philosophical perspectives on the field of character education as it is broadly defined above. The Journal is also interested in practical articles about implementation and specific programs and informed opinion statements.

Introduction to Family Processes Randal D. Day, 2014-09-04 What goes on behind closed doors in families is examined in this text. Through his storytelling style, Randy Day introduces readers to the family processes approach, the strategies and behaviors families use to achieve goals. The emphasis is on how families work and interact rather than on the psychological, sociological, or economic processes. It examines emotions in families, communication, relationship formation, dissolution, family rituals, and power and conflict. Chapters open with a Preview and conclude with a Summary, Study Questions, Key Terms, and Suggested Readings. Principle Boxes highlight key concepts, and a Glossary defines the key terms listed at the ends of the chapters. Significantly updated with 50% new material, including many new references and examples, the new edition features a new chapter that introduces the discipline's methodology, a new chapter on relationship formation including partner selection, falling in love, commitment, sexuality, passion, and intimacy, a new design reformatted to tie in with the book's website at <http://www.psypress.com/family-processes>, which now contains the Chapter Activity Questions that reinforce critical thinking skills, the Journal Activities that strengthen students' personal connection to the material, and the chapter Previews and Key Terms for review purposes. An Instructor's Web Resource at <http://www.psypress.com/family-processes> with small group and in-class exercises, lecture outlines in PowerPoint, topics for debate, suggested films, and multiple choice, true/false, matching, and essay questions. More material on the role of gender, power, genetics, and personality in relationships, families from diverse cultural and ethnic backgrounds, and the impact of work and technology on the family.
