Living Nonviolently Gabriel Moran,2011-03-31 Are human beings naturally violent Is war the fate of the human race Despite the depressing record of the past the world s future depends upon avoiding war and drastically reducing violence Living Nonviolently Language for Resisting Violence examines carefully the language of violence and war One of the first casualties of violence is language which in turn makes resistance to violence difficult to articulate In the first four chapters Gabriel Moran proposes distinctions for the interconnected ideas of force power aggressiveness violence and war not to invent a new and logical language but to ground the meaning of these terms in our human experience That revitalization of ordinary language depends upon an inclusive language of men and women adults and children human and nonhuman animals The fifth chapter locates the potential for both encouraging violence and resisting violence in the peculiar logic of religion Jesus Sermon on the Mount is commonly invoked by people who say that nonviolence may be an admirable ideal for a few people but it is irrelevant for most people and for all nations in this chapter Moran examines the widely misunderstood sermon in detail to illustrate its potential for resisting violence For a conclusion he discusses practical means of education that are helpful to reaching some understanding of violence and resistance to violence Living Nonviolently is written for scholars in peace studies political philosophy or religious studies and for anyone who wishes to understand the roots of violence and war **Textbook and Color Atlas of Traumatic Injuries to the Teeth** Jens O.
