Slavery On The Spanish Frontier The Colombian Choco 1680 181:

Afro-Latin America, 1800-2000 George Reid Andrews, 2004-07-15 Covering the last two hundred years and including Spanish America Brazil and the Caribbean this book examines how African descended people made their way out of slavery and into freedom and how once free they helped build social and political democracy in the region *African American Religious Thought* Cornel West, Eddie S. Glaude, 2003-01-01 Believing that African American religious studies has reached a crossroads Cornel West and Eddie Glaude seek in this landmark anthology to steer the discipline into the future Arguing that the complexity of beliefs choices and actions of African Americans need not be reduced to expressions of black religion West and Glaude call for more careful reflection on the complex relationships of African American religious studies to conceptions of class gender sexual orientation race empire and other values that continue to challenge our democratic ideals Slavery and Social Death Orlando Patterson, 2018-10-15 Patterson discusses the internal dynamics of slavery in 66 societies over time These include Greece and Rome medieval Europe China Korea the Islamic kingdoms Africa the Caribbean islands and the American South Slavery he argues is a single process of recruitment incorporation on the margin of society and eventual manumission or death *The History of a Periphery* Juliet B. Wiersema, 2024-01-09 An exploration of Colombian maps in New Granada **The Sweat of Their Brow: A History of Work in Latin America** David McCreery, 2016-07-01 Throughout Latin America s history the world of work has been linked to race class and gender within the larger framework of changing social political and economic circumstances both in the region and abroad In this compelling narrative David McCreery situates the work experience in Latin America s broader history Rather than organizing the coverage by forms of work he proceeds chronologically breaking 500 years of history into five periods Encounter and Accommodation 1480 1550 The Colonial System 1550 1750 Cities and Towns 1750 1850 Export Economies 1850 1930 Work in Modern Latin America 1930 the Present Within each period McCreery discusses the chief economic political and social characteristics as they relate to work identifying both continuities and discontinuities from each preceding period Specific topics studied range from the encomienda the enslaving of Indians in Spanish America the introduction of Black African slaves labor in mining agricultural labor urban and domestic labor women and work peasant economies industrial labor to the maquilas and more **The Body** Andrew Blaikie, Mike Hepworth, Mary Holmes, 2003-08-28 This collection offers a uniquely comprehensive guide to the sociology of the body With a strong historical scope and conceptual framework it provides an indispensable reference for undergraduate and postgraduate students and a robust source for scholars working in the area The central focus is on understanding sociology through the body what is often described as re reading sociology in a more corporeal light This is an interdisciplinary process drawing on history feminism cultural history art history anthropology social psychology philosophy medical sociology and media and communications as well as sociology While this has been primarily a Western practice The Body seeks to broaden the perspective to include references that draw on alternative cultural assumptions beliefs and

practices including Japan and South America Fractional Freedoms Michelle A. McKinley, 2016-10-14 *Fractional Freedoms* explores how thousands of slaves in colonial Peru were able to secure their freedom keep their families intact negotiate lower self purchase prices and arrange transfers of ownership by filing legal claims Through extensive archival research Michelle A McKinley excavates the experiences of enslaved women whose historical footprint is barely visible in the official record She complicates the way we think about life under slavery and demonstrates the degree to which slaves were able to exercise their own agency despite being ensnared by the Atlantic slave trade Enslaved women are situated as legal actors who had overlapping identities as wives mothers mistresses wet nurses and day wage domestics and these experiences within the urban working environment are shown to condition their identities as slaves Although the outcomes of their lawsuits varied *Fractional Freedoms* demonstrates how enslaved women used channels of affection and intimacy to press for liberty and prevent the generational transmission of enslavement to their children **The New Kingdom of Granada** Santiago Muñoz-Arbeláez, 2025-04-11 *The New Kingdom of Granada* tells the history of the making and unmaking of empire in the diverse and decentralized Indigenous landscapes of the Northern Andes Santiago Mu oz Arbel ez examines the intricate and disputed processes that reshaped the peoples and landscapes of present day Colombia into a kingdom within the global Spanish monarchy Drawing on correspondence visitation reports judicial records maps textiles and accounting and legal documents created by Europeans and Indigenous peoples Mu oz Arbel ez outlines the painstaking century long effort between 1530 and 1630 to consolidate the kingdom A diverse group of people that included Indigenous interpreters scribes and intellectuals spearheaded these projects which eventually expanded colonial control outward from its base in the highland Andean plateaus down to the lowland river valleys Meanwhile autonomous Indigenous political projects constantly threatened imperial rule as rebels often encircled the kingdom and seized the corridors that linked it to Spain By foregrounding the kingdom s difficult establishment and tenuous hold on power Mu oz Arbel ez challenges traditional understandings of imperial politice and the myriad ways Indigenous peoples participated in disputed and negotiated the establishment of colonial rule *Colonialism and Postcolonial Development* James Mahoney, 2010-02-15 In this comparative historical analysis of Spanish America Mahoney offers a new theory of colonialism and postcolonial development He explores why certain kinds of societies are subject to certain kinds of colonialism and why these forms of colonialism give rise to countries with differing levels of economic prosperity and social well being Mahoney contends that differences in the extent of colonialism are best explained by the potentially evolving fit between the institutions of the colonizing nation and those of the colonized society Moreover he shows how institutions forged under colonialism bring countries to relative levels of development that may prove remarkably enduring in the postcolonial period The argument is sure to stir discussion and debate both among experts on Spanish America who believe that development is not tightly bound by the colonial past and among scholars of colonialism who suggest that the institutional identity of the colonizing nation is of little consequence
