Nance, Desmond Wenger, 2017-09-20 First published in 2003 *Terrorist Recognition Handbook A Practitioner's Manual for Predicting and Identifying Terrorist Activities* remains one of the only books available to provide detailed information on terrorist methodology revealing terrorist motivation organizational structure planning financing and operational tactics to carry out attacks *Visa Waiver Program and the Screening of Potential Terrorists* United States. Congress. House. Committee on International Relations. Subcommittee on International Terrorism, Nonproliferation, and Human Rights, 2004 Arabs and Muslims in the Media Evelyn Alsultany, 2012-08-20 After 9/11 there was an increase in both the incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U.S. media *Arabs and Muslims in the Media* examines this paradox and investigates the increase of sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as *West Wing* *The Practice* *24* *Threat Matrix* *The Agency* *Navy NCIS* and *Sleeper Cell* news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality *Jihadism, Online Discourses and Representations* Rüdiger Lohlker, 2013 Jihadi online media try to mobilize recruit and disseminate the

messages of jihadi subcultures Understanding the mechanisms and structures of the products of these online media is essential for understanding jihadism in general Original research into visual representations of jihadi media outlets the subtleties of jihadi videos the specific ways jihadis use Islamic religious language into jihadi poetry and the ways jihadis stage their concepts in videos of kangaroo trials is presented in this volume Jihadis as part of the imagery of global media

production is another aspect of representations of jihadism described in one of the contributions **Iran's Revolutionary Guard** Steven O'Hern, 2012-10-31 Since the Iranian Revolution more than thirty years ago the Islamic Revolutionary Guard Corps IRGC also known as the Revolutionary Guard has conducted covert and overt military operations built an economic empire and trained financed and guided terrorists to pursue one goal the preservation and expansion of the Islamic revolution Inside Iran the IRGC influences the country's politics economy and foreign policy and controls its nuclear program Outside Iran the operations of the IRGC and its proxies including Hezbollah in Lebanon and Shiite militias in Iraq have left a trail of death from the 1983 truck bombings in Beirut that killed 241 U S peacekeepers and 58 French paratroopers to numerous attacks on U S and allied troops in Iraq and Afghanistan Now no longer content to strike in Iraq and Afghanistan or at targets in the Middle East and south Asia the IRGC and Hezbollah operate throughout North and South America developing the capability to strike the continental United States and deliver a blow to America's economy far worse than today's financial crisis In Iran's Revolutionary Guard Steven O'Hern reveals new information about the IRGC and Hezbollah operations inside America based on interviews with former and active members of the FBI CIA local law enforcement military intelligence and even one former Revolutionary Guard officer The author details how the IRGC has grown into such a dangerous foe and explains how its members activities have put the American economy and American lives at risk His research suggests that the IRGC may be planning to explode high above a Midwestern city a nuclear weapon that would emit an electromagnetic pulse strong enough to render anything with a computer chip useless including the hundreds of transformers that control the country's electrical grid One thing is certain according to O'Hern the Revolutionary Guard is a serious threat to the well being of all U S citizens **Strategic Intelligence-Community Security Partnerships**

Maiwa'azi Dandaura-Samu, 2017-10-24 This book examines the need to bridge strategic intelligence and community collaboration It explores intelligence collection analysis and operations as they relate to conflicts that can be solved through community collaboration Its argument sits at the nexus of intelligence collection operations and academic research supporting the use of analytical frameworks process theories critical thinking and pragmatic approaches in intelligence data analysis to provide a seamless end product for effective decision making by policy makers business and military strategists The book insists that public opinion matters in the sense that leaders must shape it using collected intelligence and not wait for things to just happen For any intelligence community collaboration to succeed intelligence agencies must succeed in framing and setting public opinion The book also sheds light on competitive intelligence arguing that turbulent times and

threatening environments necessitate that corporate organizations engage in competitive intelligence the same way security organizations and agencies constantly shift and change paradigms They must be innovative create new labor practices and use self motivating management approaches and dynamic imaginative models to invent new strategic intelligence tactics and resolutions for optimal performance and productivity ,
