Meijboom, Elsbeth N. Stassen, 2023-08-07 Killing animals is common practice yet it is not morally neutral The end of animal life is related to many societal and ethical questions and concerns Questions such as how long should we continue to treat an animal before putting it down But also the question whether it could be legitimate to kill individual animals for the welfare of the herd or of future generations The ongoing public and academic discussions on these and on other well known questions like those related to the killing of animals for food or for scientific purposes show that there is no one standard evaluation of animal life This book is an edited volume that enables the reader to get a grip on that plurality of views with regard to animals It helps to deal with the many questions related to the end of animal life The chapters show how the plurality of views on killing animals is related to moral presuppositions by providing a clear overview of the ethical views on end of life decisions Furthermore the book contains a number of applied studies of the ethical questions related to killing animals in various practices including small animal practice wildlife management fishing and fish farming animal experimentation and livestock farming These chapters can help veterinarians scientists students policy makers and many other professionals working with animals to easily get a good overview of the issues at stake and may contribute to responsible decision making with regard to the end of animal life

Toward Community-Based Learning, 2020-01-29 Toward Community Based Learning contends that the ideal school offers the opportunity to understand reality in a way that connects teaching and education with conditions in the surrounding community and the student's life and concerns This view holds that problem solving requires an understanding and awareness of the whole which can be achieved through direct activities In this manner learning is linked to its natural context with ideal instruction being actively problem oriented holistic and life centered This thought provoking volume offers an essential and comprehensive picture of community based learning in the field of education The book deals with the history of community based learning as well as its present applications including its global successes and difficulties The authors

provide numerous pedagogical approaches that are designed to meet the challenges of contemporary education. They show how learning is connected with authentic community environments in which students can gain new understandings through solving emerging problems. They also demonstrate how teachers can make learning more functional and holistic so that students have the ability to work in new situations within the complex world around them. School specific descriptions reveal how teachers and their students have implemented community based projects in the U S A India and China at different times. Educate young children about the environment through experience and play. These activities encourage children to develop a sense of wonder curiosity and joy for nature. Each chapter focuses on a common and important environmental topic from waste reduction and recycling to air quality weather and climate change and energy reduction and provides information to help you present these topics to children in developmentally appropriate ways. Early Childhood Activities for a Greener Earth will help you excite children engage families and encourage your community to be green. Early Childhood Activities for a Greener Earth is a 2014 Teachers Choice Award for the Classroom winner Students Learning in Communities Eija Kimonen, Raimo Nevalainen, 2022-04-04 This book examines the interplay between education and society in the 20th and early 21st centuries and addresses philosophical views and educational aims with their associated values for community based learning in the U S A India Russia and China. The philosophical background of community based learning in these countries relies both on national philosophical traditions and on reformist ideas in international schools of thought over time. Opposition to certain international pedagogical ideas surfaced in these countries. The authors offer a comprehensive picture of community based learning in education and demonstrate how teachers can make learning more functional and holistic so that students can work in new situations within their complex worlds. School specific descriptions reveal how teachers and students implemented community based projects at different times Tales from Kentucky One-Room School Teachers William Lynwood Montell, 2011-02-18 This colorful collection of stories celebrates a fascinating aspect of Kentucky's cultural heritage in a fascinating look back at a bygone era. Kentucky Monthly In an educational era defined by large school campuses and overcrowded classrooms it is easy to overlook the era of one room schools when teachers filled every role including janitor and provided a family like atmosphere in which children also learned from one another. In Tales from Kentucky One Room School Teachers oral historian William Lynwood Montell reclaims an important part of Kentucky's social cultural and educational heritage assembling a fascinating collection of schoolroom stories. The firsthand narratives and anecdotes in this collection cover topics such as teacher student relationships day to day activities lunchtime foods students personal relationships and of course the challenges of teaching in a one room school. Montell includes tales about fund raising pie

suppers pranks outrageous student behavior such as the quiet little boy whose first sharing involved profanity and many other topics Montell even includes some of his own memories from his days as a pupil in a one room school
