Peck, Lorraine Foreman-Peck**

## **Teaching Large Classes In Higher Education How To Maintain Quality With Reduced Resources:**

Teaching Large Classes in Higher Education Graham Gibbs, Alan Jenkins, 2014-03-18 This guide combines theory on teaching methodology with advice on good teaching practice in order to help teachers face the challenge of larger numbers of students in their classrooms It includes a number of case studies which explore innovative teaching methods     **The Lecturer's Guide to Quality and Standards in Colleges and Universities** Professor Kate Ashcroft, Kate Ashcroft, Dr Lorraine Foreman-Peck, Lorraine Foreman-Peck, 2005-08-12 A follow up volume to Managing Teaching and Learning in Further Education and Higher Education this text provides a guide to managing quality and standards from the lecturer's point of view It covers key issues such as teaching learning student support assessment evaluation course design bidding for and managing resources marketing and research Based on the model of lecturer as reflective practitioner this book is intended to help enable the lecturer to make sense of the changing climate of quality control and academic standards Its interactive design introduces stimulating ideas and suggestions for further reading and provides guidelines on issues of relevance to individual readers     **eLearning for Quality Teaching in Higher Education** Nan Yang, 2020-04-20 This book explores the impact of eLearning on the quality of teaching in higher education focusing on three main issues university teachers perception of quality teaching their strategies for achieving quality teaching in practice and interventions that design and implement online collaborative activities in a large class The book argues that if eLearning targets the real problems in practice and is appropriately designed and implemented it can improve the teaching quality at universities It also demonstrates the complexity of teachers perception of quality teaching and contextual factors that affect teaching practice and quality Further it explores university teachers perception of quality teaching in Italy the UK and China an aspect that is rarely addressed in the literature and reveals why the impact of ICTs on university teaching is not as great as in other fields by explaining the issues that threaten the quality of day to day teaching Lastly it confirms that traditional lecturing combined with online collaborative activities improves the quality of teaching compared to traditional lecturing alone As such this book is a necessary and important resource for the research community     Managing Teaching and Learning in Further and Higher Education Kate Ashcroft, Lorraine Foreman-Peck, 2013-10-14 The role of the teacher lecturer is to manage and facilitate the process of teaching and learning in a two way interaction between teacher self and taught other This handbook covers ways of managing the teaching learning and assessment process to improve students learning It guides readers through paths of enquiry and reflection to create a learning programme designed to meet students specific needs The focus includes student learning and tutors teaching and how these are effected by institutional arrangements the interpersonal skills of tutors and course design and teaching methods The text includes enquiry tasks which invite the reader to explore issues introduced in each chapter in the context of their own institution An annotated reading list at the end of each chapter enables the reader to take their particular interests further     **Teaching Psychology** Sandra Goss Lucas, Sandra

Goss-Lucas,Douglas A. Bernstein,2004-12-13 Most new psychology instructors enter their first undergraduate classrooms with little or no formal preparation for their role as a teacher The goal of this book is to review the body of teaching research that is available as well as some of the well accepted lore so as to make the first foray into teaching psychology a positive experience Teaching Psychology outlines the major problems and issues confronting psychology teachers It presents an overview of the nuts and bolts of teaching psychology including dealing with troubled and troubling students choosing and using technology developing evaluation instruments and selecting methods for self evaluation Written by two award winning psychology professors with over 50 years of combined teaching experience the book offers a wide range of down to earth suggestions and immediately usable materials intended to help psychology teachers teach better and help students learn more The chapters are organized to roughly parallel the sequence of tasks that new psychology teachers face beginning with goal setting and ending with evaluation of one s teaching Each chapter is chockfull of helpful tools including checklists sample lecture notes writing assignments and grading criteria To make it easier to customize this material these tools are available on an accompanying CD along with a rating sheet for choosing a textbook a student grade record sheet a sample statement on academic integrity and a pool of less than perfect test items to hone item writing skills This book offers guidelines for teaching such as setting goals in line with 10 basic principles of effective teaching planning the basics including choosing a text writing a syllabus and creating a grading system setting a positive tone in the classroom providing tips on asking and answering questions promoting critical thinking and evaluating student performance Intended for psychology graduate students who are learning to teach faculty who train psychology instructors and new psychology faculty at institutions ranging from high schools to universities as well as experienced faculty wishing to hone their teaching skills

**Annals of Entrepreneurship Education and Pedagogy - 2016** Michael H. Morris,Eric Liguori,2016-11-25 The second edition of Annals of Entrepreneurship Education and Pedagogy provides entirely new insights into a number of the leading issues surrounding the teaching of entrepreneurship and the building of entrepreneurship programs Prepared under the auspices of the United States Association for Small Business and Entrepreneurship USASBE this book features fifteen scholarly perspectives on a range of entrepreneurship education issues

**Accounting Education Research** Richard M.S. Wilson,2015-04-10 An annual prize is awarded for the best paper appearing in Accounting Education an international journal and this book contains the prize winning papers for every year from 1992 to 2012 The journal s primary mission since the first issue was published in March 1992 has been to enhance the educational base of accounting practice and all the papers in this book relate to that mission These papers reporting on research studies undertaken by accounting education scholars from around the world build on research findings from the broader domain of education scholarship and embrace a wide array of topics including curriculum development pedagogic innovation improving the quality of learning and assessing learning outcomes Of particular interest are three themes each of which runs through several of the papers students

approaches to learning and learning style preferences ethics and moral intensity and innovation within the accounting curriculum Accounting educators will find many ideas in the book to help them in enriching their work and accounting education researchers will be able to identify many points of departure for extending the studies on which the papers report whether comparatively or longitudinally This book is a compilation of papers originally published in Accounting Education an international journal

**Higher Education in the United States** James J. F. Forest, Kevin Kinser, 2002-06-21 Surveys the changing landscape of American higher education from academic freedom to virtual universities from campus crime to Pell Grants from the Student Privacy Act to student diversity In the years following World War II college and university enrollment doubled students revolted faculty unionized and community colleges evolved Tuition and technology soared as did the number of first generation minority and women students These changes radically transformed the American system of postsecondary education Today that system is in trouble Its aging professoriate prepares for retirement but low academic salaries can no longer attract the best minds to replace them A flood of corporate dollars funds commercial research but money for basic research the seedbed of American scientific preeminence has dried up Colleges and universities also face heated competition with for profit education providers for students faculty and external financial support along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education Higher Education in the United States provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study discuss and grapple with on a daily basis

**Good Teaching in Higher Education** Immanuel Ulrich, 2023-08-23 How do I plan my course How can I inspire students How do I present myself How do I want to teach How do I test correctly What teaching methods are there Due to the lack of comprehensive university didactic training teachers too often have to answer these and many other questions for themselves This book is intended to counteract this and presents practical tips on good university teaching for all disciplines based on the current state of research

*Resources in Education*, 1998

**Researching Higher Education** Jennifer M. Case, Jeroen Huisman, 2015-10-14 Research on higher education has yielded many insights that have improved our theoretical and practical understanding but there are still many themes that continue to appear on research agendas provoking renewed focus on these complex questions and problems Researching Higher Education explores these issues examining topics such as equity in access and participation the relationship between higher education and society how and what students learn and the professional development of academics In this volume contributors from Europe Australia Africa and the US critically address ongoing issues with a set of key questions to guide their analysis What do we know What are the missing links and gaps in past research What are the implications for further research Key themes include The nature of higher education Higher education and society Staff and students in higher education Teaching and learning Curriculum and assessment Critical engaging and international in scope Researching Higher Education will be a valuable guide for academics researchers postgraduate students and policy makers

in the higher education community      **To Improve the Academy** Linda B. Nilson, Judith E. Miller, 2009-10-12 The development of students is a fundamental purpose of higher education and requires for its success effective advising teaching leadership and management Professional and Organizational Development Network in Higher Education POD fosters human development in higher education through faculty instructional and organizational development A smart mix of big picture themes national developments and examples of effective faculty development initiatives from a variety of schools To Improve the Academy offers examples and resources for the enrichment of all educational developers This annual volume incorporates all the latest need to know information for faculty developers and administrators      Teaching Psychology Douglas A. Bernstein, 2014-06-26 This volume provides thoroughly updated guidelines for preparing and teaching an entire course in psychology Based on best principles and effective psychological and pedagogical research it offers practical suggestions for planning a course choosing teaching methods integrating technology appropriately and effectively developing student evaluation instruments and programs and ideas for evaluation of your own teaching effectiveness While research based this book was developed to be a basic outline of what to do when you teach It is intended as a self help guide for relatively inexperienced psychology teachers whether graduate students or new faculty but also as a core reading assignment for those who train psychology instructors Experienced faculty who wish to hone their teaching skills will find the book useful too      Tools for Teaching Barbara Gross Davis, 2009-07-17 This is the long awaited update on the bestselling book that offers a practical accessible reference manual for faculty in any discipline This new edition contains up to date information on technology as well as expanding on the ideas and strategies presented in the first edition It includes more than sixty one chapters designed to improve the teaching of beginning mid career or senior faculty members The topics cover both traditional tasks of teaching as well as broader concerns such as diversity and inclusion in the classroom and technology in educational settings      Empowering Novice Academics for Student Success Dr Johann Hugo, 2021-04-26 This book is essential for academics that enter the field of higher education and training as it focuses on preparing teachers and trainers to respond appropriately to student success challenges Student success is a burning issue both globally and locally While student achievement is determined by a combination of factors teachers and their teaching practices do matter Higher education teachers are expected to fulfil different roles at different times such as planning for curriculum implementation mentorship and coaching facilitating learning resource development and student assessment Against this background the primary purpose of Empowering novice academics for student success Wearing different hats is building the capacity of novice teachers and trainers to play an influential role in increasing student success throughout      **The Learning Society** Elisabeth Dunne, 2014-05-12 This text provides perspectives in British and international interpretations of a learning society and what the roles of core skills are The book covers what should be happening in theory and what is happening in practice and develops a critical awareness of the issues      **Distance Education for Language Teachers** Ron Howard, Ian

McGrath,1995 Distance learning was associated for many years with the endeavour of a correspondence course Based on a symposium this book presents current research and practice in the field      **Voices from the Classroom** York University (Toronto, Ont.). Centre for the Support of Teaching,2001-01-01 Published Under the Garamond Imprint The voices in this book reflect the broad diversity of a large urban university community with contributions from undergraduate and graduate students teaching assistants contract and full time faculty staff and administrators Issues of equity diversity and power form the foundation of this community s thinking about pedagogy and the topics span a continuum from the theoretical to the practical Voices from the Classroom will have a broad appeal to the university teaching community across North America facing common challenges in the twenty first century      **Fostering a Climate of Inclusion in the College Classroom** Lavonna L. Lovern,2018-03-12 This book examines inclusion teaching at the college and university level It establishes the importance of the Humanities disciplines and the use of qualitative analysis as a means of understanding and encouraging democratic materials and classroom organization The first section of the text provides two primers for those unfamiliar with pedagogical history and theory These primers are designed to give basic information and sources for additional study They trace pedagogical influences from foundationism neoliberalism conflict and critical theories to critical race theory Red pedagogy and decolonization theories The second half of the book focuses on strategies to assist those attempting classroom inclusion These chapters are designed to assist with practical ways in which inclusion can be advanced as well as strategies to assist junior faculty in the navigation of the politics of inclusive education      **Researching into Teaching Methods** Clinton Bennett,Lorraine Foreman-Peck,Chris (All Senior Lecturers Higgins,2014-05-12 This is one of a series of short practical guides aimed at lecturers and tutors in colleges and universities to help them get started on research It covers all aspects of teaching methods strategies for interactive teaching methods small and large group teaching and student learning
