Teaching Secondary Students Through Their Individual Learning Styles Rita Dunn, Kenneth J. Dunn, 1993 **Teaching Students Through Their Individual Learning Styles** Rita Dunn, Kenneth J. Dunn, 1978 **Practical Approaches to Using Learning Styles in Higher Education** Rita Dunn, Shirley A. Griggs, 2000-04-30

Dunn and Griggs challenge the traditional instructional process of lecture discussion in college classroom and describe the theory practice and research that support a wider variety of approaches to better accommodate the learning style preferences of each student Twenty five practitioners from varied backgrounds and disciplines representing 14 colleges and universities outline alternative strategies they use with diverse students in their institutions of higher education Some of these practitioners have been using learning style for decades Others have conducted research to test the various tenets of the Dunn and Dunn Learning Style Model and a few only for the past five years have begun providing instructional strategies that are congruent with their students preferences A road map is provided for college faculty to assist them in moving toward accommodating students learning style strengths by comparing the major theories of learning styles that range from uni to multi dimensional in scope Strategies include identifying and administering valid and reliable instruments for assessing college students learning styles interpreting assessment results so that each student becomes aware of his her own strengths and is provided a computer generated prescription for improving their study skills and successfully completing assignments designing instruction to respond to both global and analytic students processing styles developing course content and materials to accommodate the learning style preferences of college students and evaluating the impact of learning styles based instruction **Teaching Students Through Their Individual Learning Styles** ,1995* Teaching Students Through Their Individual Learning Styles Rita Stafford Dunn,1989 **Differentiating Instruction for At-Risk Students** Rita Dunn,Andrea Honigsfeld,2009

When the activities described herein are introduced to students whose learning styles they match most will demonstrate strong abilities to learn and remember new and difficult content within the first four months of beginning_if not earlier This book is written to prevent more children from becoming at risk and to help those who already have fallen behind their classmates and do not enjoy school **Learning Styles, Classroom Instruction, and Student Achievement** Daniel H. Robinson,Veronica X. Yan,Joseph A. Kim,2022-01-29 The book examines the history of learning styles including their widespread acceptance and endorsement in educational settings In addition it explores both the support of and opposition to learning styles by academics The book discusses cases for and against learning styles and offers a systematic review of empirical evidence It describes consequences of promoting learning styles in the classroom and offers insights into future directions in research and practice The book offers a critical examination that adds to the broader discussion of what is truthful and what is fake news in education Key areas of coverage include History of learning styles Widespread belief in and uses of learning styles Review of recent learning styles coverage in academic journals The case for learning styles The case

against learning styles Consequences associated with using learning styles Learning Styles Classroom Instruction and Student Achievement is an essential resource for researchers professors and graduate students as well as teachers and educational professionals in such varied fields as clinical child and school psychology educational psychology social work public health teaching and teacher education and educational practice and policy

The Struggle for Identity in Today's Schools Patrick M. Jenlink, Faye Hicks Townes, 2009-04-16 The Struggle for Identity in Today's Schools examines cultural recognition and the struggle for identity in America's schools In particular the contributing authors focus on the recognition and misrecognition as antagonistic cultural forces that work to shape and at times distort identity What surfaces throughout the chapters are two lessons to be learned in relation to identity The first lesson is that identities and the acts attributed to them are always forming and re-forming in relation to historically specific contexts and these contexts are political in nature i.e. defined by issues of diversity such as race ethnicity language sexual orientation gender and economics The second lesson presented by the authors is that identity forms in and across intimate and social contexts over long periods of time The historical timing of identity formation cannot simply be dictated by discourse The identities posited by any particular discourse become important and a part of everyday life based on the intersection of social histories and social actors Importantly the social cultural use of identities leads to another way of conceptualizing histories personhoods cultures and their distributions over social and political groups

Homework Eunsook Hong, Roberta M. Milgram, 2000-06-30 While there are some books and articles about the importance of understanding in school learning style and the benefits in achievement and attitude toward learning that accrue from matching learning style to learning environment this is the first book on homework style Homework style is the personal preference for doing the tasks assigned by teachers and learning new material outside of the formal school setting Learning style and homework style have been found to be related yet empirically distinguishable indicating the unique situation the home variable plays in forming individual learning styles This guide will help parents teachers and counselors understand homework style and gain an awareness of the relationship between homework style homework achievement and school achievement
