Teaching Faulkner Approaches And Methods:

Teaching Faulkner Stephen Hahn, Robert W. Hamblin, 2001 For decades now literary critics have universally praised Faulkner as one of the greatest writers of the modern era yet students assigned to read his novels in university college and high school classes continue to struggle to make sense of his convoluted plots prolix style and complex characterizations The broadest treatment to date of a topic of increasing concern this book is designed to provide fresh strategies and practical suggestions for the classroom study of several of Faulkner's finest novels and stories including *The Sound and the Fury* *Absalom Absalom* *Light in August* *The Unvanquished* and *Go Down Moses* The contributors all noted Faulkner scholars who regularly teach Faulkner works in their courses employ a variety of critical theories and approaches In each chapter theory is subordinated to tested classroom methods that both motivate and assist students in reading the texts and in understanding why Faulkner remains relevant for contemporary readers The teaching strategies described in this book draw upon such diverse matters as cultural and social analysis historical context reading and rhetorical theory film and stage techniques comparative studies and race class and gender issues

Faulkner's Ethics Michael Wainwright, 2021-05-28 This book offers the first comprehensive investigation of ethics in the canon of William Faulkner As the fundamental framework for its analysis of Faulkner's fiction this study draws on *The Methods of Ethics* the magnum opus of the utilitarian philosopher Henry Sidgwick While Faulkner's *Ethics* does not claim that Faulkner read Sidgwick's work this book traces Faulkner's moral sensitivity It argues that Faulkner's language is a moral medium that captures the ways in which people negotiate the ethical demands that life places on them Tracing the contours of this evolving medium across six of the author's major novels it explores the basic precepts set out in *The Methods of Ethics* with the application of more recent contributions to moral philosophy especially those of Jacques Derrida and Derek Parfit

Yoknapatawpha Blues Tim A. Ryan, 2015-04-13 During the 1920s and 1930s Mississippi produced two of the most significant influences upon twentieth century culture the

modernist fiction of William Faulkner and the recorded blues songs of African American musicians like Charley Patton, Geeshie Wiley, and Robert Johnson. In *Yoknapatawpha Blues*, the first book examining both Faulkner and the music of the South, Tim A. Ryan identifies provocative parallels of theme and subject in diverse regional genres and texts. Placing Faulkner's literary texts and prewar country blues song lyrics on equal footing, Ryan illuminates the meanings of both in new and unexpected ways. He provides close analysis of the Great Mississippi Flood of 1927 in Faulkner's *Old Man* and Patton's *High Water Everywhere*, racial violence in the story *That Evening Sun*, and Wiley's *Last Kind Words*. *Blues* and male sexual dysfunction in *Sanctuary* and Johnson's *Dead Shrimp Blues*. This interdisciplinary study reveals how the characters of Yoknapatawpha County and the protagonists in blues songs similarly strive to assert themselves in a threatening and oppressive world. By emphasizing the modernism found in blues music and the echoes of black vernacular culture in Faulkner's writing, *Yoknapatawpha Blues* links and elucidates the impact of both Faulkner's fiction and roots music on the culture of the modern South and of the nation.

The Post-Utopian Imagination M. Keith Booker, 2002-01-30 In America the long 1950s were marked by an intense skepticism toward utopian alternatives to the existing capitalist order. This skepticism was closely related to the climate of the Cold War in which the demonization of socialism contributed to a dismissal of all alternatives to capitalism. This book studies how American novels and films of the long 1950s reflect the loss of the utopian imagination and mirror the growing concern that capitalism brought routinization, alienation, and other dehumanizing consequences. The volume relates the decline of the utopian vision to the rise of late capitalism with its expanding globalization and consumerism and to the beginnings of postmodernism. In addition to well-known literary novels such as Nabokov's *Lolita*, Booker explores a large body of leftist fiction, popular novels, and the films of Alfred Hitchcock and Walt Disney. The book argues that while the canonical novels of the period employ a utopian aesthetic that tends to be very weak and is not reinforced by content, the leftist novels on the other hand employ a realist aesthetic but are utopian in their exploration of alternatives to capitalism. The study concludes that the utopian energies in cultural productions of the long 1950s are very weak and that these works tend to dismiss utopian thinking as naïve or even sinister. The weak utopianism in these works tends to be reflected in characteristics associated with postmodernism.

Approaches to Teaching Faulkner's The Sound and the Fury Stephen Hahn, 1996-01-01 The works of William Faulkner have become part of the undergraduate canon in the decades since he received the Nobel Prize in 1950. While many of Faulkner's novels and stories are assigned to high school and college students, the editors of this volume focus on *The Sound and the Fury* because the novel is representative of Faulkner's best writing and accessible to many levels of

teaching and learning The novel also lends itself to exploration of many topics including biographical fiction the decline of the Old South and the rise of the New South the influence of American and European literary traditions and the treatment of subjectivity and language Publisher description **Practical Approaches and Techniques on Creativity** Afzal Sadat Hosseini, 2025-09-30 This book presents qualitative findings from the Creativity Education Program designed to be a valuable resource for educators Creativity is essential to the survival and growth of a society More than any other factor teachers can play a more effective role in the development of students creativity due to their extensive relationships with students Thus it can be said that teachers play a crucial role in students creative experiences But the questions are Do our teachers understand the importance of their role Have our teachers been able to stimulate students creativity What is the position of creativity in our classrooms The approach teachers use to instruct and their classroom management strategies have a direct impact on enriching the classroom environment to foster and develop students creativity In light of this critical role the author developed a Creativity Education Program based on thirty years of scientific and practical experience This program was evaluated through several stages of research to assess its impact The evaluation aimed to explore the effects of the program on teachers knowledge attitudes and skills as well as on students creativity The statistical results demonstrated a positive and significant impact however the qualitative findings of the program proved to be even more meaningful than the quantitative results It provides practical insights that educators can immediately apply in their classrooms to foster creativity

American Literary Scholarship James Leslie Woodress, 1965 *ATQ* , 2003 *A Gathering of Evidence* Michel Gresset, Patrick H. Samway, 2004 This book gathers together twelve recent and classic essays on Faulkner's *Intruder in the Dust* which he termed a mystery murder whose theme concerns a relationship between Negro and white specifically or rather the premise being that the white people in the south before the North or the govt or anyone else owe and must pay a responsibility to the Negro These essays provide a rich set of resources to teachers who wish to assign this text as well as to provide food for thought and discussion to individual readers and scholars of Faulkner **The Philological Review** , 2001

Critical Research Methodologies , 2021-02-08 We live in a society that promotes the universal process of producing knowledge and truth making as fundamental social process Such promotion of universality seems to subjugate others forms of knowing rendering them invisible unintelligible and ineligible and subsequently outside the community of knowing This has material and symbolic consequences in terms of how research informs policy and subsequent victimization of those who live and experience subjugation meted by Western truth making universalism In the words of Foucault this book is an insurrection of subterranean and clandestine knowledges in ways that provide not just an alternative process of knowledge production but affirms local knowledge as necessary in production of a just society The book looks at research as a social justice and transformational process that should speak of people's ways of live without necessarily streamlining them into numbers The book is a critically reflexive project in terms of returning processes of knowledge production to the local space

rather than imagining them as entirely centred in the structure To imagine this book as reflexive exercise is to break boundaries of knowledges in ways that come to imagine how local performs global in very complicated and complex ways This book is a resurrection of local knowledges steeped in creative and imaginative reflexive methodologies that come to reorient how we come to know what we know the values and realities that mark what we know and the how of knowledge production It centres subjugated voices and knowledges as fundamental in production of knowledge Contributors include Katie Bannon Elizabeth Charles Khulood Agha Khan Dionisio Nyaga Fritz Pino and Rose Ann Torres
