challenge essentialist notions that do not seek merely to deny but to shift the conversation constructively by encouraging engagement with a theoretical field from which to acquire tools to critically and effectively evaluate stereotypes of Japan or other societies. The result is a collection of carefully crafted case studies of syllabi that showcase pedagogies aimed at the deconstruction of concepts such as Japan Japanese or Japanese society while at the same time offering skills of inquiry that transcend the topics being deconstructed This handbook is a source of ideas from colleagues in a variety of disciplinary and institutional settings who are tackling the same issues current or future teachers who plan to use case studies from Japan in Education and Anthropology Annette Rosenstiel, 2019-07-23 Originally published in 1977 and compiled over a period of 25 years of teaching and research in the fields of education and anthropology this annotated bibliography was designed as a single source reflecting 1 historical influences 2 current trends 3 theoretical concerns and 4 practical methodology at the interfaces of these disciplines All entries listed alphabetically by author are numbered for ready reference and the material covered spans nearly three centuries from the earliest entry in 1689 to the most recent in 1976 The volume also contains entries for items dealing with the teaching of anthropology and the use of anthropological concepts and data in teaching **Teaching Anthropology** Andrew Hunter Whiteford, 1960 Science Course Improvements <u>Joys of Teaching Anthropology</u> Patricia C.
