Global Perspectives on Soccer and the Media and Entertainment Industry Endong, Floribert Patrick

C., 2024-12-02 Soccer has increasingly become a political tool worldwide, reflecting and influencing ideologies, identities and movements despite claims of being apolitical by bodies like FIFA. Historic and recent examples such as fascist propaganda in the 1930s and the LGBTQ protests during the 2022 World Cup highlight its political impact. The sport also fuels cultural production, inspiring media, music and artistic works that engage with its socio-political dimensions. However, the intersection between soccer's political influence and its representation in arts and media remains unexplored, prompting a closer examination of this dynamic. **Global Perspectives on Soccer and the Media and Entertainment Industry** provides different perspectives on the interactions between political soccer and global media and entertainment industries. These perspectives are historical, religious, socio-cultural and political among others. Covering topics such as international politics, social media and visually impaired players, this book is an excellent resource for media practitioners, policymakers, international relations experts, politicians, academicians, researchers and more.

International Perspectives on Rethinking Evil in Film and Television Tüysüz, Dilan, 2020-12-22 Aestheticization of evil is a frequently used formula in cinema and television. However, the representation of evil as an aesthetic object pushes it out of morality. Moral judgments can be pushed aside when evil is aestheticized in movies or TV series because there is no real victim. Thus, situations such as murder or war can become a source of aesthetic pleasure. Narratives in cinema and television can sometimes be based on a simple good/evil dichotomy and sometimes they can be based on individual or social experiences of evil and follow a more complicated method. Despite the various ways evil is depicted, it is a moral framework in film and television that must be researched to study the implications of aestheticized evil on human nature and society. **International Perspectives on Rethinking Evil in Film and Television** examines the changing representations of evil on screen in the context of the commonness, normalization, aestheticization, marginalization, legitimization or popularity of evil. The chapters provide an international perspective of the representations of evil through an exploration of the evil tales or villains in cinema and television. Through looking at these programs, this book highlights topics such as the philosophy of good and evil, the portrayal of heroes and villains, the appeal of evil and evil's correspondence with gender and violence. This book is ideal for sociologists, professionals, researchers and students working or studying in the field of cinema and television and practitioners, academicians and anyone interested in the portrayal and aestheticization of evil in international film and television.

Global Perspectives on Media Events in Contemporary Society Fox, Andrew, 2016-02-25 Media events have been described as broadcasts that involve an engaged audience viewing the same event simultaneously, though this definition is still relevant the way media outlets interact with

and react to their audiences has greatly changed This is in part due to the emergence of social media platforms which allow a participatory audience something that genre specific television channels now rely on Because these genre specific 24 hour channels seek to hook viewers with hyperbolic presentation and the illusion of large media events the original definition must be adapted Global Perspectives on Media Events in Contemporary Society seeks to re define the role of the media in relaying information about current events within a modern context Determining what constitutes as and the proper presentation of a media event is of great importance given the ubiquity of media consumption This book approaches the topic from historical ceremonial and globally cultural perspectives while addressing news sports and other significant current events It is a vital resource for students and teachers of communication media and journalism professionals in the media industry policy makers and sociologists

International Perspectives on Feminism and Sexism in the Film Industry Sarı, Gülşah,Çetin, Derya,2019-11-22 Gender studies has maintained its status as a heavily researched field However women and their role in cinema is a vastly understudied topic that deals with various aspects of feminism and sexism The function of women in the film industry has evolved over time and proven to be an interesting area of research regarding the transition from sexual icons to respected professionals Feminism is a widely researched subject yet its specific application within cinema is an area that has yet to be studied International Perspectives on Feminism and Sexism in the Film Industry is an essential reference source that examines the representation of women in cinema and provides a feminist approach to various aspects of the film industry including labor production and the cultural impact of women in motion pictures Featuring research on topics such as violence against women feminist film theory and psychoanalysis this book is ideally designed for directors industry professionals writers screenwriters activists professors students administrators and researchers in fields that include film studies gender studies mass media and communications

Global Perspectives on Journalism in Nepal Bhanu Bhakta Acharya,Shyam Sharma,2022-04-07 With more than 1000 newspapers 1100 local radios 200 television channels 3000 online news portals and over 80 colleges providing media education and training news media and media education are vibrant fields in Nepal This book provides a comprehensive overview of Nepal s news media including empirical studies critical reviews and theoretical and philosophical analyses focusing on journalism and contemporary media practices in the country using local standpoints and global perspectives Laying foundations of academic research and discourse it explores key issues about the state of media and journalism practices of Nepal and situates them against the professional standards of global journalism and journalism education The book covers all news media including traditional newspaper radio and television and digital platforms
