The Creative Turn Anne M. Harris, 2014-04-16 The conundrum of understanding practising and teaching contemporary creativity is that it wants to be all things to all people Almost all modern lists of creativity creative thinking and how to becoming creative books begin with one premise the creative individual artist is not special rather each of us is creative in a special way and these skills can and must be nurtured Increasingly industry and education

leaders are claiming that creativity is the core skill to take us into a prosperous future signalling the democratisation of creativity as industry Yet centuries of association between aesthetics mastery and creativity are hard to dismantle These days it is increasingly difficult to discuss creativity without reference to business industry and innovation Why do we love to think of creativity in this way and no longer as that rare visitation of the muse or the elite gift of the few This book looks at the possibility that creativity is taking a turn what that turn might be and how it relates to industry education and ultimately cultural role of creativity and aesthetics for the 21st century In proliferating discourses of the commodification of creativity there is one thing all the experts agree on creativity is undefinable possibly unteachable largely unassessable and becoming the most valuable commodity in 21st century markets *Conferring with Young Writers* Kristin Ackerman, Jennifer McDonough, 2023-10-10 If you've ever sat down to confer with a child and felt at a loss for what to say or how to help move him or her forward as a writer this book is for you If you are a strong teacher of writing but are not seeing results from your students this book is for you Authors Kristin Ackerman and Jennifer McDonough have been teaching writing for several years and know that conferring can be a murky and messy process perhaps the hardest component of all Written from the lessons they've learned through hard won classroom experience their mistakes and challenges *Conferring with Young Writers* is based on what Kristin and Jen call the three Fs frequency focus and follow up They've created a classroom management system that offers routine and structure for giving the most effective feedback in a writing conference This book will help writing teachers and students learn to break down and utilize the qualities that enable good writing elaboration voice structure conventions and focus The authors also provide the knowledge and skills it takes to confer well which will help you improve as a writing teacher and give your students the confidence to think of themselves as writers *Understanding and Supporting Young Writers from Birth to 8* Noella M.
