Mediality on Trial Ehler Voss,2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This

volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium's power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive That is why the past and present of mediumship may be asked to elucidate each other *The Gospel of the Toltecs* Frank Díaz, 2002-06-01 A compilation of the teachings of Quetzalcoatl avatar of the Toltecs reconstructed from original source texts and the legends told at his birthplace in Amatlan Morelos Mexico The first complete historical account of the life and teachings of Quetzalcoatl the most important figure in Mesoamerican spirituality Includes 86 chronological teaching stories accompanied by 27 codex illustrations Quetzalcoatl Ce Acatl born in A D 947 whose stature has been compared to that of Christ Buddha and Krishna was the key figure in the development of the spiritual culture of the Toltecs In *The Gospel of the Toltecs* the author has gathered Nahuatl and Maya codexes Spanish chronicles of conquest and native oral tradition to recount the life of Quetzalcoatl his temptation and fall his initiation with sacred mushrooms his long journey in search of spiritual enlightenment his triumphant return to the Toltec land and his subsequent teaching self immolation ascension and promise of return Quetzalcoatl's teachings make up the Toltecayotl or Toltequity the art of intentional doing which provides an initiatic guide for the transformation of individuals and society while his personal history is a guide for the development of Nahualli the magical side of human awareness For all those who wish to deepen their knowledge of the roots of Toltec spirituality or who wish to grow from the teachings of one of the world's great spiritual leaders *The Gospel of the Toltecs* offers a unique and authentic access to the life and ministry of one of the most important figures in the ancient world
