Tech Intell United States. Army. Ordnance Department, 1995 **The Last Nazis** Perry Biddiscombe, 2004-06-30 The history of the shadowy Werewolf guerrilla bands formed at end of the Second World War as the last desperate defence of Nazis Founded by Heinrich Himmler in 1944 when it became clear Germany would be invaded the Werewolf guerrilla movement was given the task of slowing down the Allied advance to allow time for the success of negotiations or wonder weapons Staying behind in territory occupied by the Allies its mission was to carry out acts of sabotage arson and assassination both of enemy troops and of defeatist Germans Perry Biddiscombe has researched the movement exhaustively and details Werewolf operations against the British Russians and fellow Germans on the Eastern and Western Fronts and in the post war chaos of Berlin Giving the lie to the established story of a cowed German population meekly submitting to defeat this is a fascinating insight into what has been described as the death scream of the Nazi regime **Books In Print**

Gilbert, John Patrick Finnegan, 2004-06-01 This book is part of the Army historical

community's commemoration of the fiftieth anniversary of World War II American victory in that conflict was brought about not only by the valor of our fighting men and the immensity of our productive capacity but also by the availability of superb military intelligence. Much of this intelligence came from the ability of our armed forces to intercept and decipher the most secret communications of their adversaries. For many years security considerations prevented any public mention of these successes in the official histories. Now much of the story can be told. To preserve the memory of the Army's role in this intelligence war the U S Army Center of Military History has joined with the History Office U S Army Intelligence and Security Command INSCOM to publish this collection of documents on Army signals intelligence in World War II. INSCOM carries on the heritage of the Army's World War II Signal Security Agency which by breaking the Japanese diplomatic ciphers and military codes helped speed the way of our forces to victory. The book is intended both for an Army audience and for the general public including those World War II veterans who participated in the signals intelligence war and who for so many years were constrained to keep their contributions secret. The security barriers have now been lifted and the Army is proud to acknowledge those contributions. Technical Intelligence, 1966

Eyes on the Enemy Chris McNab, 2025-08-05 a comprehensive reprint of the Intelligence doctrine that supported the American drive to victory on numerous fronts against a wide range of enemies and environments. It is worth the read to reinforce the basics of what we still do today. The Vanguard Journal of the Military Intelligence Corps Association. On December 7, 1941, an imperial Japanese carrier strike force attacked the US Pacific Fleet at Pearl Harbor, taking advantage of what was one of the most profound intelligence failures in US history. Galvanized into action, the branches of the U S military subsequently developed one of the greatest albeit imperfect intelligence gathering and analysis networks of the combatant nations, opening an invaluable window onto the intentions of their enemies. The picture of U S military intelligence during World War II is a complex one. It was divided between the fields of signal intelligence (SIGINT) and human intelligence (HUMINT), combat intelligence and War Department intelligence, and between numerous different organizations including the Military Intelligence Division (MID), Military Intelligence Service (MIS), the Office of Naval Intelligence (ONI), the Counter Intelligence Corps (CIC), the Office of Strategic Services (OSS), and the many intelligence units organic to Army, Navy, Army Air Forces, and Marine Corps. The documents collected in this book reveal the theoretical and practical principles behind wartime intelligence gathering and analysis, from the frontline intelligence officer to the Washington-based code breaker. They explain fundamentals such as how to observe and record enemy activity and intercept enemy radio traffic, through to specialist activities such as cryptanalysis, photoreconnaissance, prisoner interrogation, and undercover agent operations. The painstaking work of an intelligence operator required a sharp attentive mind, whether working behind a desk or under fire on the frontlines. The outputs from these men and women could ultimately make the difference between victory and defeat in battle.

U. S. Military,Department of Defense (DoD),Department of The Army,U. S. Government,2017-09-13 This study traces the development of American radio intelligence at the operational and tactical levels from its beginnings in World War I through the end of World War II It shows that signals intelligence is useful to the tactical and operational level commander The study recommends the Army rethink signal intelligence support to the various echelons primarily through changes to tables of organization and equipment The thesis covers the initial appearance of radio intelligence units on the battlefields of France in the first world war identifying specific instances where radio intelligence played a role in a command decision It also looks at training and doctrine in the period between the two world wars The thesis also covers the organization doctrine and training of radio intelligence units as they prepared for combat It provides a glimpse into the intelligence support provided to the corps army and army group commanders during World War II through examination of actual intercept operations Where possible the study compares and contrasts German radio intelligence units and operations with their American counterparts Chapter 1 Introduction Chapter 2 Organization and Doctrine Chapter 3 Wartime Operations Chapter 4 Intelligence Operations Chapter 5 Analysis and Conclusions Endnotes Appendix A 3250th Signal Service Company Results of Intercept Appendix B Tables Of Organization Signal Radio Intelligence Companies Appendix C Direction Finding Equipment Appendix D Unit Citation and Campaign Participation Appendix E Sequence Of Collection Operations Appendix F Radio Intelligence Equipment Appendix G Glossary Bibliography The purpose of this paper is to examine the influence of radio intelligence at the army corps and army group level in World War II How was radio intelligence used at the operational and tactical levels during World War II How did American radio intelligence compare to German units and operations What lessons did we learn and what is the effect of those lessons on today s forces At every echelon division corps and theater army there are military intelligence MI units with the sole purpose of providing signals intelligence support to the commander One Combat Electronic Warfare and Intelligence CEWI battalion directly supports a division two MI battalions the Technical Exploitation and the Aerial Exploitation support a corps and two MI Battalions SIGINT support theater armies worldwide The roots of these units can be found in the radio intelligence and signal service companies from World War II No classified material was used in the thesis While simplifying research classification problems arose in an unexpected arena It appears that few operational records those with actual intercept logs message contents etc were saved after the war Two units after writing their after action reports destroyed their operational logs because of security reasons but also to reduce the amount of baggage to take home This created a gap in tracing how any intercepted material became intelligence briefed to a commander
