*The Technical Manager's Handbook* Melvin Silverman, 1996-05-31 Every organization business and manager is unique and each demands an individually tailored management style. Supposedly universal management strategies must be tailored to suit the specific situations that each individual faces daily in the work environment. This book provides a theoretical and practical foundation for the adaptation and tailoring of a universal management style into a specific effective style with the power to produce the desired results. It assists the manager or would be manager in the development of a management style that meets the needs of any kind of business. Each chapter begins with a case study illustrating a typical problem followed by questions and answers about the presented challenges. The chapters also contain thought provoking one sentence suggestions that can be immediately implemented enabling the reader to produce results and succeed in today's rapidly evolving economic and technological environments. This work combines the best and latest in management theory with tested practical applications making it a useful tool for managers not only in technically orientated industries but in any kind of company. Based upon the author's more than 25 years of experience in management consulting writing lecturing and teaching this work is designed to help readers handle the demanding responsibilities of technical management. It features important information in dealing with international firms contracts TQ ISO 9000 and CAD management. It also provides essential details on personal liability and ethics in decision making motivating employees leadership and creating teams. The *Technical Manager's Handbook* serves as a valuable cross method reference for engineers scientists researchers and students who are or soon will be involved in technical management operations. Managers in quality assurance manufacturing administration and computer manufacturing will also benefit from this volume's accessible and applicable exploration of pertinent issues.
