Progress ,1964 Unlikely Entrepreneurs Barbra Mann Wall, 2005 In *Unlikely Entrepreneurs* Barbra Mann Wall looks at the
development of religious hospitals in the late nineteenth and early twentieth centuries and the entrepreneurial influence
Catholic sisters held in this process When immigrant nuns came to the United States in the late nineteenth century they
encountered a market economy that structured the way they developed their hospitals Sisters enthusiastically engaged in the
market as entrepreneurs but they used a set of tools and understanding that were counter to the market Their
entrepreneurship was not to expand earnings but rather to advance Catholic spirituality Wall places the development of
Catholic hospital systems located in Illinois Indiana Minnesota Texas and Utah owned and operated by Catholic sisters within
the larger social economic and medical history of the time In the modern health care climate with the influences of
corporations federal laws spiraling costs managed care and medical practices that rely less on human judgments and more
on technological innovations the modern hospital reflects a dim memory of the past This book will inform future debates on
who will provide health care as the sisters depart how costs will be met who will receive care and who will be denied access
