Traffication develops a bold new idea that the trillions of miles of driving we do each year are just as destructive to our natural environment as any of the better known threats such as habitat loss or intensive farming. The problem is not simply one of roadkill; the impacts of roads are far more pervasive and they impact our wildlife in many subtle and unpredictable ways. Using the latest research, the book reveals how road traffic shatters essential biological processes affecting how animals communicate, move around, feed, reproduce, and die. Most importantly, it shows that the influence of traffic extends well beyond the verge and that a busy road can strip the wildlife from our countryside for miles around. In the UK, almost nowhere is exempt from this environmental toll. Yet the final message here is one of hope by identifying the car as a major cause of the catastrophic loss of wildlife; the solutions to our biodiversity crisis suddenly become much clearer. The first step to solving any problem is to recognise that it exists in the first place. But with road traffic, we are not even at that crucial initial stage in our recovery. Quite simply, Traffication does for road traffic what Silent Spring did for agrochemicals, awakening us from our collective road blindness and opening up a whole new chapter in conservation. This urgent book is an essential contribution to the debate on how we restore the health of our countryside and of our own minds and bodies.

The Sixth Book of the Aeneid Virgil, 1920. The Sixth Book of the Aeneid, together with the Second and Fourth Books, holds a special place in the affections of all lovers of Vergil. Some will prefer the sombre tragedy of Troy; others the pathos of Dido's passion and self-slaughter. But be his personal predilection, what it may for the reader who considers the Aeneid as a whole and regards it as something more than a mere literary epic, the Sixth Book must hold a unique place.

Exterminance Cometh Robert Segarra, 2000-06. A meteor collides with the Earth where millions feel its effect and struggle to survive the aftermath. World governments put all their efforts into rebuilding and maintaining society in order to survive what is certain to be the most serious threat to mankind's existence it has ever had to face. As populations cluster, it soon becomes apparent that the opportunity to rebuild a society that is free of the oppressive regimes of the past has finally arrived. With freedom in mind, many groups come together as a unified group to begin the work of creating a free society and prepare for a final showdown with the world government of Harold Anderson.

Revelation (Baker Exegetical Commentary on the New Testament) Grant R. Osborne, 2002-11-01. The Book of Revelation contains some of the most difficult passages in Scripture. Grant Osborne's commentary on Revelation begins with a thorough introduction and the many difficulties involved in its interpretation. He also examines elements that complicate the interpretation of apocalyptic literature. As with all volumes published in the BECNT series, Revelation seeks to reach a broad audience with scholarly research from a decidedly evangelical perspective.
