Whyman, 2018-01-17 In the wake of the Greek crisis the future of the EU is the subject of a great deal of debate This book critically evaluates the current new monetarist model of Economic and Monetary Union in Europe presenting an alternative post Keynesian progressive model aimed at addressing the current problems of trade imbalance and asymmetric macroeconomic policy infrastructure that are augmenting tensions within the Eurozone The book s approach is based upon the development of a common rather than a single currency approach and utilises post Keynesian policy solutions in order to create a form of EMU which will promote

full employment rather than austerity      Cultures and Globalization Helmut K Anheier, Yudhishtir Raj Isar, 2007-03-27 In the age of globalization we are no longer home alone Migration brings other worlds into our own just as the global reach of the media transmits our world into the hearts and minds of others Often incommensurate values are crammed together in the same public square Increasingly we all today live in the kind of edge cultures we used to see only on the frontiers of civilizations in places like Hong Kong or Istanbul The resulting frictions and fusions are shaping the soul of the coming world order I can think of no other project with the ambitious scope of defining this emergent reality than The Cultures and Globalization project I can think of no more capable minds than Raj Isar and Helmut Anheier who can pull it off Nathan Gardels Editor in Chief NPQ Global Services Los Angeles Times Syndicate Tribune Media This series represents an innovative approach to the central issues of globalization that phenomenon of such undefined contours Lupwishi Mbuyumba Director of the Observatory of Cultural Policies in Africa The world's cultures and their forms of creation presentation and preservation are deeply affected by globalization in ways that are inadequately documented and understood The Cultures and Globalization Series is designed to fill this void in our knowledge Analyzing the relationship between globalization and cultures is the aim of the Series In each volume leading experts as well as young scholars will track cultural trends connected to globalization throughout the world covering issues ranging from the role of cultural difference in politics and governance to the evolution of the cultural economy and the changing patterns of creativity and artistic expression Each volume will also include an innovative presentation of newly developed indicator suites on cultures and globalization that will be presented in a user friendly form with a high graphics content to facilitate accessibility and understanding Like so many phenomena linked to globalization conflicts over and within the cultural realms crystallize great anxieties and illusions through misplaced assumptions inadequate concepts unwarranted simplifications and instrumental readings The aim here is to marshal evidence from different disciplines and perspectives about the culture conflict and globalization relationships in conceptually sensitive ways      *EU Economic Policy at the Dawn of the Century* Patrick M. Crowley, 2008 The European Union EU has undergone remarkable change in the last century from frequent conflicts in the first part of the last century to peace stability and unprecedented prosperity in the second half As we move into the first half of the twenty first century there is also a sense that a fragile economic renaissance is underway in the EU but one that is fraught with challenges and difficulties Contrary to many of the vociferous critics of the single currency project mostly US economists and some UK politicians most notably Thatcher 2002 to date the project has met with remarkable success despite the dramatic fall in the euro from its launch date and the strains imposed on EU economies following the recent downturn in the world economy EU Enlargement has now been successfully completed and although there have been painful discussions on EU institutional reform to accommodate the expansion a breakdown in the 2005 budget negotiations and an controversy over the implementation of the Stability and Growth pact it is likely that this will not impede the addition of new Member States from the east      Enabling

Social Europe B. Maydell v., K. Borchardt, K.-D. Henke, R. Leitner, R. Muffels, M. Quante, P.-L. Rauhala, G. Verschraegen, M. Zukowski, 2006-02-03 Enabling Social Europe examines how the paradigm of the enabling welfare state might offer a new perspective for European social policy in the decades to come The enabling concept is perceived as going beyond that of mere activation thus also embracing policies aimed at increasing personal autonomy individual responsibility and social inclusion by endowing individuals with the resources and capabilities needed to manage and balance their life courses in a better way The study is distinguished by a unique collaboration of social and economic policy experts coming from a wide range of disciplines economics law sociology political science and philosophy The authors seek to shed new light on whether European social policy ought to play a role in the future and if so what sort of role that could be They convincingly argue that despite an implicit normative consensus on the European social model there is still room for a multifaceted world in which welfare regimes can maintain their own path dependent ways of achieving a fair and just society with a high level of welfare for all The empirical part of the book contains an appraisal of policies and reforms with a view to the enabling welfare state approach in four important policy areas health care old age security family policy and poverty prevention Within each sector the authors compare the policies and practices of two countries attributable to different regime types Germany and the United Kingdom Poland and Germany Finland and Estonia and Belgium and Denmark This book is highly recommendable not only for scholars and policymakers active in this field but also for students of welfare and labour economics sociology social policy political science and law

**Crisis, Austerity and Transnational Party Cooperation in Southern Europe** Vladimir Bortun, 2023-10-23 The most internationalist of all party families the radical left has paradoxically always lagged behind in its cooperation at the EU level The previous decade however the transnational character of the Eurozone crisis and its austerity centred management provided a strong incentive to remedy that By focusing on the relations between three prominent members of this party family at the time SYRIZA Podemos Left Bloc this book shows how and why the transnational cooperation on the radical left largely failed to deliver in a propitious context With implications for the study of other party families the book lays out the key factors that prevented the European radical left from coming together to provide an alternative to the neoliberal status quo in the EU

topical and important developments seeking new and interesting perspectives Sweden has been a member of the European Union since 1995 and EU law and European law perspectives have been well integrated into Swedish labour law and social security law research Within the European Social Model and the European Welfare State Sweden and to some degree the other Nordic countries as well can be said to represent a specific system as regards both labour law and industrial relations and social security law In terms of influential comparative typologies or models naturally flawed by a certain element of vagueness and simplification but also very helpful in analytical and pedagogical respects Sweden has been described as a representative of inter alia a Nordic legal family a Nordic labour law model a social collectivist industrial relations system a consensual industrial relations system a social democratic welfare state regime a Scandinavian social security law system a sub group of the Beveridge system and a coordinated market economy But since 1995 EU law and European law perspectives have been extensively integrated into existing Swedish labour and social security law and the chapters in this book go a long way in illustrating the far reaching and multifaceted ways in which Swedish law has been Europeanised Social Europe, the Road not Taken Aurélie Dianara Andry, 2022-10-20 This book examines the European Left's attempt to think and give shape to an alternative type of European integration a social Europe during the long 1970s Based on fresh archival material it shows that the western European Left in particular social democratic parties trade unions and to a lesser extent Eurocommunist parties formulated a project to turn capitalist Europe into a workers Europe This project favoured coordinated measures for wealth redistribution market regulation a democratisation of the economy and of European institutions upward harmonisation of social and fiscal systems more inclusive welfare regimes guaranteed employment economic and social planning with greater consideration for the environment increased public spending to meet collective needs greater control of capital flows and multinational corporations a reduction in working time and a fairer international economic order favouring the global south During the pivotal years following 1968 deeply marked by labour militancy new social movements economic crisis and the unmaking of the postwar compromise a window of opportunity opened in which European integration could have taken different roads The defeat of social Europe was a result of a decade long social conflict which ended with the affirmation of a neoliberal Europe Investigating this forgotten struggle and the reasons of its defeat can be useful not just to scholars and students eager to understand the historical evolution of European integration the European Left and European capitalism but also to anyone interested in building alternative European and global futures

Smith, 2004-03-04 Over the past decade European economic integration has seen considerable institutional success but the economic performance of the EU has been varied While macroeconomic stability has improved and an emphasis on cohesion preserved the EU economic system has not delivered satisfactory growth performance This book is the report of a high level group commissioned by the President of the European Commission to review the EU economic system and propose a blueprint for an economic system capable of delivering faster growth along with stability and cohesion It assesses the EU's economic performance examines the challenges facing the EU in the coming years and presents a series of recommendations The report views Europe's unsatisfactory growth performance during the last decades as a symptom of its failure to transform into an innovation based economy It has now become clear that the context in which economic policies have been developed has changed fundamentally over the past thirty years A system built around the assimilation of existing technologies mass production generating economics of scale and an industrial structure dominated by large firms with stable markets and long term employment patterns no longer delivers in the world of today characterized by economic globalization and strong external

competition What is needed now is more opportunity for new entrants greater mobility of employees within and across firms more retraining greater reliance on market financing and higher investment in both R D and higher education This requires a massive and urgent change in economic policies in Europe
