International Handbook of Urban

Policy: Contentious global issues H. S. Geyer, 2007-01-01 This first Handbook in a series of three original reference works looks at globally contentious urban policy issues from a wide variety of different angles and perspectives Matters related to urban densification population mobility urban inequality and sustainability are analysed in a manner that will not only interest the advanced student but also the novice Urban policy covers a vast field This first volume combines chapters covering three broad themes policy issues pertaining to the spatial aspects of the city social and mobility issues and issues of urban governance The spotlight initially falls on urban structure urban densification the disappearing urban rural divide the urban economic landscape and the transformation of socialist economies The Handbook then goes on to focus on migration social mobility crime terrorism and social inequality Finally urban sustainability and urban governance come under the spotlight Integration of the planning process flexibilities in infrastructure and areas of neglect in environmental management feature strongly in this section of the Handbook Books of this nature are often slanted in one particular direction however this Handbook's approach is different Not only has the editor avoided shying away from politically sensitive issues but contributions have also been included that reflect distinct differences of opinion on politically sensitive issues hence the volume's subtitle of contentious global issues As a Handbook the chapters have been written not only for the advanced student and academics but also with undergraduate students in mind The Handbook will appeal to scholars and researchers of geography and urban and development planning demography and social science and environmental scientists for the focus on urban sustainability issues

Urban Regeneration in Europe Chris Couch, Charles Fraser, Susan Percy, 2008-04-15 This book provides a comparative account of the process of urban regeneration and examines the factors influencing these processes as well as the consequences of their implementation Through a mixture of theoretical discussion and a series of case studies a thorough examination is made of the extent to which these different European old industrial conurbations are facing similar problems

Combatting the Causes of Inequality Affecting Young People Across Europe Mikael Stigendal, 2018-04-25 Inequality is one of the most burning issues of our time affecting young people in particular What causes inequality And how can actors at the local level combat the causes not only the symptoms By seeking to answer these questions the book will contribute to this growing and transdisciplinary subject area by using mainly qualitative research and a perspective that integrates theory in every phase of the analysis Drawing on cultural political economy based on critical realism the author claims that the most important causes of inequality are the ones inherent as potentials in capitalism and the capitalist type of state Compared with the first post war decades these potential causes have been actualised differently since around 1980 They are also actualised differently across Europe The book explores these differences concerning growth models and welfare regimes In general societies have developed into a new condition of social inclusion which explains why many young people have become excluded Societal borders have arisen in the cities separating the winners and losers of inequality Positioning itself outside the box of what tends to be the majority of the publications in the field the book proposes

knowledge alliances between young people policy makers civil society and researchers to combat the causes of inequality

Urban Poverty and the Underclass Enzo Mingione, 2008-09-15 Over the last two decades poverty has moved centrestage as an issue within the social sciences This volume edited by one of Europe's foremost sociologists aims to assess the debates surrounding poverty and the responses to it exploring the ways in which the various socio political systems and welfarist regimes are being radically transformed The essays examine how such change is effected by failing welfare programmes and enervating social structures such as family and community which once would have provided mechanisms of social stability The first part of the book provides reflections on urban poverty the second part discusses the widely debated idea of an underclass and its meanings in Europe and in the USA and the final part draws on concrete empirical analyses to examine the patterns of poverty throughout Western Europe This volume will be of first rate importance to all serious students of politics sociology geography public policy youth and community studies social policy and American studies
