people in the Americas Africa Asia and ancient Europe It then connects medicinal plants to the growth of scientific medicine in the West Subsequent chapters cover the regulation of drugs the use of powerful plant chemicals such as cocaine nicotine and caffeine in various medical settings and the application of biomedicine s intellectual frameworks to the manufacture of novel drugs from ancient treatments Geared toward nonspecialists this text fosters a deep appreciation of the complex chemistry and cultural resonance of herbal medicine while suggesting how we may further tap the vast repositories of the world s herbal knowledge to create new pharmaceuticals *Shanghaiing Sailors* Mark Strecker,2014-05-19 Shanghaiing or forcing a man to join the crew of a merchant ship against his will plagued seafarers the world over between 1849 and 1915 Perpetrators were known as crimps and they had no respect for a man s education social status race religion or seafaring experience The merchant ships were involved in the opium tea and gold trades and the practice was spurred by the opening of the Suez Canal A major reason for it was a shortage of sailors and the unwillingness of seamen to sail on certain types of ships They suffered from great deprivations all for a paltry sum usually squandered during shore leave Navies and pirates had their own form of shanghaiing called impressment This work explores the rich history of shanghaiing and impressment with a focus on victims and also considers the 19th century seafarer and the circumstances that made shanghaiing so lucrative *Opium's Orphans* P. E. Caquet,2022-07-06 Upending all we know about the war on drugs a history of the anti narcotics movement s origins evolution and questionable effectiveness *Opium s Orphans* is the first full history of drug prohibition and the war on drugs A no holds barred but balanced account it shows that drug suppression was born of historical accident not rational design The war on drugs did not originate in Europe or the United States and even less with President Nixon but in China Two Opium Wars followed by Western attempts to atone for them gave birth to an anti narcotics order that has come to span the globe But has the war on drugs succeeded As opioid deaths and cartel violence run rampant contestation becomes more vocal and marijuana is slated for legalization *Opium s Orphans* proposes that it is time to go back to the drawing board *The Social Life of Opium in Qing China* Yang-Wen Zheng,2001 **Occupational Hazards** Elanah Uretsky,2016-02-24 Doing business in China can be hazardous to your health *Occupational Hazards* follows a group of Chinese businessmen and government officials as they conduct business in Beijing and western Yunnan Province exposing webs of informal networks that help businessmen access political favors These networks are built over liquor cigarettes food and sex turning risky behaviors into occupational hazards Elanah Uretsky s ethnography follows these powerful men and their vulnerabilities to China s burgeoning epidemics of sexually transmitted infections STIs and HIV AIDS Examining the relationship between elite masculine networking practices and vulnerability to HIV infection *Occupational Hazards* includes the stories of countless government officials and businessmen who regularly visit commercial sex workers but resist HIV testing for fear of threatening their economic and political status Their fate is further complicated by a political system that cannot publicly acknowledge such risk and by authoritative international paradigms that limit the reach of public health

interventions Ultimately Uretsky offers insights into how complex socio cultural and politico economic negotiations affect the development and administration of China s HIV epidemic

Power and Illicit Drugs in the Global South Maziyar Ghiabi, 2020-04-28 More than a hundred years have passed since the adoption of the first prohibitionist laws on drugs Increasingly the edifice of international drug control and laws is vacillating under pressures of reform Scholarship on drugs history and policy has had a tendency to look at the issue mostly in the Western hemisphere of the globe or to privilege Western narratives of drugs and drugs policy This volume instead turns this approach upside down and makes an intellectual attempt to redefine the subject of drugs in the Global South Opium heroin cannabis hashish methamphetamines and khat are among the drugs discussed in the contributions to the volume which spans from Sub Saharan Africa to Southeast Asia including the Middle East North Africa Latin America and the Indian Subcontinent The volume also makes a powerful case for an interdisciplinary approach to the study of drugs by juxtaposing the work of historians political scientists geographers anthropologists and criminologists Ultimately this edited volume is a rich and diverse collection of new case studies which opens up venues for further research This book was originally published as a special issue of Third World Quarterly
