Social Movements And Political Reform In Hong Kong:

Social Movements and Political Reform in Hong Kong Linda Butenhoff, 1999-09-30 Hong Kong society is often regarded as politically apathetic Yet throughout its history Hong Kong experienced periodic waves of social movement activity In part the perception of an apathetic populace stems from the colonial government's laissez faire policies the society's concentration on economic development the maintenance of traditional Chinese culture and a consensus that Hong Kong would revert to Chinese sovereignty Since Hong Kong was a colony instead of evolving into a democratic government Great Britain instituted a system of elite consultation and absorption of the masses political problems through indirect participation Butenhoff addresses the question of why social movements emerged and how they influenced the process of political reform Her study presents and analyzes the activities of social movements so that a clearer picture of civil society and political change from below emerges Butenhoff integrates the literature on Hong Kong civil society and social movements into an integrated approach to analyze social movement influence in Hong Kong politics Her three case studies the independent labor movement the nontraditional Christian movement and the democracy movement are analyzed using a social movement framework She evaluates the forces that drive and sustain social movements and argues that while the Chinese and British governments debated the fate of democratic Hong Kong the Hong Kong people have been overlooked throughout the process And as a result Hong Kong social movements play an essential role in raising the awareness of the people and bringing to light the voices from below

The Dynamics of Social Movements in Hong Kong Stephen Wing Kai Chiu, Tai Lok Lui, 2000-01-01 Studies of Hong Kong society have long focused one sidedly upon economic prosperity and political stability Contributors to this volume redress this imbalance by taking a critical view of Hong Kong's political development from the perspectives of social conflict and collective action Instead of looking at Hong Kong from the top this volume documents the active role played by local actors from below political groups student activists trade unions women groups environmentalists and community organizers and their impact on social and political development in Hong Kong society in the context of political transition and democratization economic restructuring and an emergent local identity

Interest Groups and the New Democracy Movement in Hong Kong Sonny Shiu-Hing Lo, 2017-09-13 A new era in the democracy movement in Hong Kong began on July 1 2003 when half a million people protested on the streets and has included the 2012 anti National Education campaign the 2014 Occupy Central Movement and the rapid rise of localist groups The new democracy movement in Hong Kong is characterized by a diversity of interest groups calling for political reform policy change and the territory's autonomy vis vis the central government in Beijing These groups include lawyers teachers students nativists workers Catholics human rights activists environmental activists and intellectuals This book marks a new attempt at understanding the activities of the various interest groups in their quest for democratic participation governmental responsiveness and openness They are utilizing new and unconventional modes of political participation such as the Occupy Central Movement

in Hong Kong Michael Ng, John Wong, 2017-07-14 This book examines important social movements in Hong Kong from the perspectives of historical and cultural studies Conventionally regarded as one of the most politically stable cities in Asia Hong Kong has yet witnessed many demonstrations and struggles against the colonial and post colonial governments during the past one hundred years Many of these movements were brought about in the name of justice and unfolded against the context of global unrest Focusing on the local developments yet mindful of the international backdrop this volume explores the imaginaries of law and order that these movements engendered revealing a complex interplay among evolving notions of justice governance law and order and cultural creations throughout the under explored history of instability in Hong Kong Underscoring the apparently contrasting discourses on the relationship among the rule of law law and order and social movements in Hong Kong the contributors emphasise the need to re examine the conventional juxtaposition of the law and civil unrest Readers who have an interest in Asian studies socio political studies legal studies cultural studies and history would welcome this volume of unique interdisciplinarity □□□□□□□□□□ Frank Joseph Shulman, Anna See Ping Leon

China: Essays on "One Country, Two Systems" Albert H.Y. Chen, 2021 This collection of selected works by Professor Albert H Y Chen shows the contours of the author s scholarship as it developed over 35 years of his academic career from 1984 to the present The essays are divided into three sections which cover the three major domains of Professor Chen s research Part I covers the legal developments and controversies of One Country Two Systems since the Hong Kong interpretation on the right of abode in 1999 to the anti extradition movement of 2019 Part II shifts to focus on tradition and modernity in Chinese Law including China s Confucian and Legalist traditions and how the socialist legal system in China evolved and modernized in the era of reform and opening Part III examines the transplantation of Western thinking and constitutionalism to East Asia in modern times and discusses the achievements and failures of these efforts In conjunction with an introductory chapter that sets out the basic orientation and paradigm of these legal and constitutional studies and an

epilogue that reflects on the main themes this collection exemplifies the author's important contributions to the field and provides insight into how the legal orders in Hong Kong and mainland China have changed over the course of Professor Chen's academic career Citizenship, Identity and Social Movements in the New Hong Kong Wai-man Lam, Luke Cooper, 2017-09-11 Hong Kong's Umbrella Revolution has been widely regarded as a watershed moment in the polity's post 1997 history While public protest has long been a routine part of Hong Kong's political culture the preparedness of large numbers of citizens to participate in civil disobedience represented a new moment for Hong Kong society reflecting both a very high level of politicisation and a deteriorating relationship with Beijing The transformative processes underpinning the dramatic events of autumn 2014 have a wide relevance to scholarly debates on Hong Kong China and the changing contours of world politics today This book provides an accessible entry point into the political and social cleavages that underpinned and were expressed through the Umbrella Movement A key focus is the societal context and issues that have led to growth in a Hong Kong identity and how this became highly politically charged during the Umbrella Movement It is widely recognised that political and ethnic identity has become a key cleavage in Hong Kong society But there is little agreement amongst citizens about what it means to be Hong Konger today or whether this identity is compatible or conflicting with being Chinese The book locates these identity cleavages within their historical context and uses a range of theories to understand these processes including theories of nationalism social identity ethnic conflict nativism and cosmopolitanism This theoretical plurality allows the reader to see the new localism in its full diversity and complexity and to reflect on the evolving nature of Hong Kong's relationship with Mainland China Social Movements, Political Reform and the Transfer of Sovereignty in Hong Kong Linda Butenhoff, 1996 *Rethinking the Occupy Movement in Hong Kong* Shen Yang, 2024-07-25 Yang examines the political process of the Occupy Movement spanning from January 2013 when the Occupy Central with Love and Peace OCLP campaign was initiated to December 2014 when the Occupy Movement finally ended This book adopts an actor centered approach in the study of democratization and places civil society as the focus of the analysis The OCLP campaign was an attempt to transfer leadership of democratization from political parties to civil society while the incorporation of Deliberation Days further let ordinary participants decide on the electoral proposals The democratic ideals of civil society activists and the mobilization of radical democrats led the campaign to enter a radical position The Chinese government interpreted democratization in Hong Kong from a regime security perspective and took a hardliner position After the Occupy Movement finally occurred the leadership of civil society and the conception of civil disobedience contained the radical protesters However after the movement civil society organizations were blamed for its failure and contention in Hong Kong became more transgressive and decentralized This book is a valuable resource for scholars of Hong Kong's Politics and a relevant case study for those studying the dynamics of social movements and the civil society strategy in democratic transition **Hong Kong in the Shadow of China** Richard C. Bush, 2016-10-11 A close up look at the struggle for

democracy in Hong Kong Hong Kong in the Shadow of China is a reflection on the recent political turmoil in Hong Kong during which the Chinese government insisted on gradual movement toward electoral democracy and hundreds of thousands of protesters occupied major thoroughfares to push for full democracy Fueling this struggle is deep public resentment over growing inequality and how the political system established by China and dominated by the local business community reinforces the divide between those who have profited immensely and those who struggle for such basics as housing Richard Bush director of the Brookings Institution's Center on East Asia Policy Studies takes us inside the demonstrations and the demands of the demonstrators and then pulls back to critically explore what Hong Kong and China must do to ensure both economic competitiveness and good governance and the implications of Hong Kong developments for United States policy
