This collection of essays addresses the broadening array of issues on the agenda of the women's health movements of the 1980s and 1990s, just as a previous collection, *Women and Health: The Politics of Sex in Medicine*, gathered contributions from the earlier wave of the women's health movement in the 1970s. The papers in both volumes are selected from the *International Journal of Health Services*, edited by Vicente Navarro. The essays in this volume were originally published in the 1980s and early 1990s. Together they present a framework for understanding the struggles over women's health that have occurred in this time period and provide specific analyses of women's health in relation to race, ethnicity and class, the work of health care, the health of women workers, international reproductive health, sexuality, AIDS and public health policy. **Oxford Textbook of Public Mental Health** Dinesh

Bhugra, Kamaldeep Bhui, Samuel Yeung Shan Wong, Stephen E. Gilman, 2018-09-13. Prevention of mental illness and mental health promotion have often been ignored in the past, both in undergraduate and postgraduate curricula. Recently, however, there has been a clear shift towards public mental health as a result of increasing scientific evidence that both these actions have a serious potential to reduce the onset of illness and subsequent burden as a result of mental illness and related social, economic and political costs. A clear distinction between prevention of mental illness and mental health promotion is critical. Selective prevention, both at societal and individual level, is an important way forward. The *Oxford Textbook of Public Mental Health* brings together the increasing interest in public mental health and the growing emphasis on the prevention of mental ill health and promotion of well-being into a single comprehensive textbook. Comprising international experiences of mental health promotion and mental well-being, chapters are supplemented with practical examples and illustrations to provide the most relevant information succinctly. This book will serve as an essential resource for mental and public health professionals as well as for commissioners of services, nurses and community health visitors. **How Healthy Are We?** Orville Gilbert
