Social Scientists And Politics In Canada:

Social Scientists and Politics in Canada Stephen Brooks, Alain-G. Gagnon, 1988-09-01 Social scientists have played many roles in Canadian politics since the Second World War Stephen Brooks and Alain Gagnon examine the forms and extent of social scientists involvement in the political process their relationship to the state and the complexities of their class position The unique development of the social sciences in Quebec and their relationship to Quebec nationalism are examined and distinctions between development in this community and in the predominantly anglophone community of the rest of Canada are contrasted *Science and Politics in Canada* G. Bruce Doern, 1972-01-01 *The Development of Political Science* David Easton, Luigi Graziano, John Gunnell, 2002-03-11 In recent years the history of political science has become recognised as an important but neglected area of study The Development of Political Science is the first comprehensive discussion of the subject in a comparative international perspective Offering a wide ranging account of the development of the subject and its dissemination across national borders and cultural divides the book begins with a study of the historiography of the discipline in the United States a country which has been at the forefront of the field Widening its discussion to emphasise Western Europe as a focus for comparison the contributors provide studies of further areas of interest such as China and Africa This particular approach emphasises the book's vision of political science as a growing transnational body of knowledge In presenting critical analysis of the state of the field this vigorous study aims to further the development of the discipline in the countries discussed and to provide a work that is interesting not only to political scientists but to all those concerned with the development of the social sciences *Finding List of the Social Sciences, Political Science, Law, and Education* Virginia State Library, 1910 *The Comparative Turn in Canadian Political Science* Linda White, Richard Simeon, Robert Vipond, Jennifer Wallner, 2009-01-01 Over the past decade the study of Canadian politics has changed profoundly The introspective insular and largely atheoretical style that informed Canadian political science for most of the postwar period has given way to a deeper engagement with and integration into the global field of comparative politics This volume is the first sustained attempt to describe analyze and assess the comparative turn in Canadian political science Canada's engagement with comparative politics is examined with a focus on three central questions In what ways and how successfully have Canadian scholars contributed to the study of comparative politics How does study of the Canadian case advance the comparative discipline Finally can Canadian practice and policy be reproduced in other countries Political Elites in Canada Alex Marland, Thierry Giasson, Andrea Lawlor, 2018-09-01 Political Elites in Canada offers a timely look at Canadian politics and how power brokers are adapting to a fast paced digital media environment Elite power structures are changing worldwide and the rise and fall of political influencers permeates national headlines In many areas traditional elites are losing authority over prevailing social economic and political structures Communication between and among elites and citizens is having dramatic implications for political institutions and governance This volume explores the changing

Youth in Canadian Politics Kathy Megyeri, 1991-01-01 When is a person mature enough to vote Would lowering the voting age compromise political processes Would giving people the vote stir them to greater involvement What would be the effect on other laws affecting youth What

are the Charter implications The studies in this volume uncover a wide range of opinion about young people and their involvement in politics The author point to the diversity of perceptions about the attitudes and attributes of youth even among young people themselves In considering the appropriate age for the vote they cast light on the overall status of young Canadians in terms of rights laws institutions and public opinion Raymond Hudon and colleagues study political involvement by Quebecois youth Patrice Garant investigates legal and Charter implications of lowering the voting age Jon Pammett and John Myles argue that lowering the voting ages to 16 would be a low risk initiative All concur that generalizing about 16 to 18 year olds is as difficult and questionable as making sweeping statements about any other age defined sociological group

Canadian Intellectuals, the Tory Tradition, and the Challenge of Modernity, 1939-1970 Philip Massolin, 2015-05-27 In this well researched book Philip Massolin takes a fascinating look at the forces of modernization that swept through English Canada beginning at the turn of the twentieth century Victorian values agrarian religious and the adherence to a rigid set of philosophical and moral codes were being replaced with those intrinsic to the modern age industrial secular scientific and anti intellectual This work analyses the development of a modern consciousness through the eyes of the most fervent critics of modernity adherents to the moral and value systems associated with Canada s tory tradition The work and thought of social and moral critics Harold Innis Donald Creighton Vincent Massey Hilda Neatby George P Grant W L Morton Northrop Frye and Marshall McLuhan are considered for their views of modernization and for their strong opinions on the nature and implications of the modern age These scholars shared concerns over the dire effects

of modernity and the need to attune Canadians to the realities of the modern age Whereas most Canadians were oblivious to the effects of modernization these critics perceived something ominous far from being a sign of true progress modernization was a blight on cultural development In spite of the efforts of these critics Canada emerged as a fully modern nation by the 1970s Because of the triumph of modernity the toryism that the critics advocated ceased to be a defining feature of the nation s life Modernization in short contributed to the passing of an intellectual tradition centuries in the making and rapidly led to the ideological underpinnings of today s modern Canada

Feministing in Political Science Alana Cattapan, Ethel Tungohan, Nisha Nath, Fiona MacDonald, Stephanie Paterson, 2024-05-29 Focusing on the discipline of political science this collection examines what is at stake in contesting the boundaries of the contemporary university As the study of politics and political life the mainstream of the discipline has examined power in the institutions and processes of government But if the personal is political political science is about much more than what happens in those institutions This collection draws together personal essays pedagogical interventions dialogues and original research to reflect on how feministing as an orientation and as an analytic can centre experiential knowledge and reshape our understandings of political science Collectively these contributions lay bare the ways that power moves in and through the academy naming the impacts on those who are most structurally precarious all while pointing to potential futures made possible by refusal solidarity and hope
