

A complex collage representing social problems. The background features a city skyline with smoke rising from it, suggesting industrial pollution. In the center, a large blue whale is depicted, possibly symbolizing environmental issues. To the left, a crowd of people is shown, with one person holding a sign that says "CENTRE". In the foreground, a young child is looking up, and several people are wearing blue headscarves. The overall scene is a mix of urban, natural, and human elements, highlighting various social and environmental challenges.

*Issues and Challenges of Inclusive Development*

R. Maria Saleth, S. Galab, E. Revathi, 2020-06-18 This book explores inclusive development in the Indian context not only within each of the country's major economic and social sectors but also across countries in the particular context of globalization. In the emerging scenario of most expanding economies including India, this topic remains particularly significant. The book's sixteen chapters are divided into eight sections that address burning issues related to inclusive development: historical setting and policy context; current issues and future challenges; inclusiveness in the agricultural sector; inclusiveness in the industrial sector; inclusiveness in the health sector; inclusiveness and poverty; inclusiveness in the social context; and inclusiveness in the globalization context. The book highlights several positive developments displayed by the Indian economy in recent years, including the current growth rate of about 7 percent, which is among the highest rates around the globe. At the same time, it draws attention to the fact that while there is every reason to feel proud of these achievements, we cannot ignore the strains and brewing distress, especially in rural areas, or the concerns in environmental and social sectors, including health and education, relating to sociological divisions and disturbances, water and air pollution, and ecosystem and biodiversity losses. Important and relevant from both academic and policy perspectives, the book includes essays from some of the most eminent economists and social scientists in the South Asian region, providing vital takeaways for researchers and NGOs as well as corporate sector and government decision makers.

**Social Sector Development and Governance** Ramesh Chandra Das, 2023-06-28 This volume explores the impact of good governance upon social sectors' development in India and other selected economies of the world. Economic development in the true sense depends on the development of different social sectors like education, healthcare, gender equality, etc., as well as economic factors. Good governance makes the sectors perform well on the one hand and helps in economic growth and development on the other. Conversely, bad or weak governance in the form of corruption and low effectiveness of the governments may lead to poor performance of the sectors and low growth and backwardness of the economies. This book explores the associations between different social sectors' performances with quality of governance and growth and development of different economies and groups in detail and establishes theoretical and empirical examinations for the individual economies and groups from the different corners of the globe with the help of new theories and latest data. This book will be useful for students and researchers in the fields of Economics, Sociology, Political Studies, Public Finance, International Relations, Social Sciences, as well as policy makers and think tanks.

*Challenges, Opportunities and Innovations in Social Work Field Education* Ronnie Egan, Nicole Hill, Wendy Rollins, 2020-11-12 This book collates and analyses the current research, debates, opportunities, and practices in social work field education into one volume and contextualises this material within the broader context of social work. Current concerns about risk and uncertainty in field education are explored from multiple stakeholder perspectives. Social work field education is an integral component of social work education, yet its sustainability is increasingly challenged. Issues such as finding enough quality placements with accredited social workers, curriculum development, student diversity,

and placement assessment of learning are being examined by researchers and practitioners alike This represents a challenge for the social work profession generally By drawing on traditional and alternative pedagogical perspectives on field education and constructions of risk and uncertainty evident in current discourse the book presents innovative responses to existing challenges Providing a reference point for future knowledge building in sustainable field education pedagogy and practice this book will interest university field education programs and industry field educators internationally
