Social Semiotics Text Meaning And Nabokovs Ada:

Social Semiotics as Praxis Paul J. Thibault, 1990 In *Social Semiotics as Praxis* Paul J. Thibault rescues semiotics from terminal formalism by recognizing that the object of a semiotic inquiry is necessarily the way in which human beings individually and collectively make sense of their lives. Focusing on Vladimir Nabokov's *Invitation to a Beheading* (Ada), he develops a conception of social semiotics that is a form of both social action and political praxis. Thibault's principal intellectual sources are among others Bakhtin, Volosinov, Derrida, Foucault, Gramsci, Habermas, and Halliday. Thibault combines the work of Halliday in particular with his own theories of semiotics to explore the dynamics of quoting and reporting speech and to develop a critique of the categories of self and representation. Thibault accounts for the meaningful relationships constructed among texts and elaborates on the two main themes of relational levels in texts and the dynamics of contextualization to give voice to a unifying discourse for talking about social meaning making.

Vladimir Nabokov Neil Cornwell, 1999 Vladimir Nabokov's extraordinary literary career as a master of Russian and English prose is unique. Acclaimed in the limited Russian migré world under the name of Sirin Nabokov, he switched to writing in English and settled in America, a refugee from Hitler's Europe. Exile, memory, lost love, and the magic of childhood are among his themes. Stylistic and structural dexterity are his hallmarks. *Lolita* ranked number 4 in the 1998 New York Modern Library list of 100 best novels of the century published in English, enabled him to retire to a final and productive period of European residence. Film versions of his most controversial novel keep Nabokov's name before the public while almost his entire oeuvre remains currently available in paperback. Neil Cornwell's study, published for the Nabokov centenary, examines five of Nabokov's major novels plus his short stories and critical writings, situating his work against the ever-expanding mass of VN scholarship and noting his cultural debt to Russia, Europe, America, and the British Isles.

RePresenting Bisexualities Maria Pramaggiore, Donald E. Hall, 1996-07-01 Is bisexuality coming out in America? Bisexual characters are surfacing on popular television shows and in film. Newsweek proclaims that a new sexual identity is emerging. But amidst this burgeoning acknowledgment of bisexuality, is there an understanding of what it means to be bisexual in a monosexual culture? *RePresenting Bisexualities* seeks to answer these questions, integrating a recognition of bisexual desire with new theories of gender and sexuality. Despite the breakthroughs in gender studies and queer studies of recent years, bisexuality has remained largely unexamined. Problematic sexual images are usually attributed either to homosexual or heterosexual desire, while bisexual readings remain unexplored. The essays found in *RePresenting Bisexualities* discuss fluid sexualities through a variety of readings from the fence, covering texts from Emily Dickinson to *Nine Inch Nails*. Each author contributes to the collection a unique view of sexual fluidity and transgressive desire. Taken together, these essays provide the most comprehensive bisexual theory reader to date.

Cheng, Kenneth C.C. Kong, 2009-04-01 Professional Communication presents ten studies of communication practices in a variety of professional contexts By drawing on diverse methodologies from fields such as conversation analysis intercultural communication and organizational studies the essays here examine how language is constructed managed and consumed in various professional situations ranging from academic settings to business negotiations One important theme of the book is its emphasis on the collaboration between researchers and professionals The contributors strongly believe that such collaborative partnership will provide direct implications for improving workplace communication and enhance better understanding of the construction of professional identity and organizational behaviour This book will appeal to not only scholars and researchers in discourse analysis intercultural communication and professional studies but also practitioners in the related fields and disciplines Discourse and Community Eija Ventola, 2000 **Distributed Language, Affective Dynamics, and the Human Ecology Volume I** Paul J. Thibault, 2013-01-11 Through a detailed re-reading of Saussure's work in the light of contemporary developments in the human life and physical sciences Paul Thibault provides us with the means to redefine and refocus our theories of social meaning making Saussure's theory of language is generally considered to be a formal theory of abstract sign types and sign systems separate from our individual and social practices of making meaning In this challenging book Thibault presents a different view of Saussure Paying close attention to the original texts including the *Cours de Linguistique Generale* he demonstrates that Saussure was centrally concerned with trying to formulate a theory of how meanings are made Re-reading Saussure does more than simply engage with Saussure's theory in a new and up to date way however In addition to demonstrating the continuing viability of Saussure's thinking through a range of examples it makes an important intervention in contemporary linguistic and semiotic debate

The Reading of Theoretical Texts Peter Ekegren, 2002-01-04 Since the structuralist debates of the 1970s the field of textual analysis has largely remained the preserve of literary theorists Social scientists while accepting that observation is theory laden have tended to take the meaning of texts as given and to explain differences of interpretation either in terms of ignorance or bias In this important contribution to methodological debate Peter Ekegren uses developments within literary criticism philosophy and critical theory to reclaim this study for the social sciences and to illuminate the ways in which different readings of a single text are created and defended
