Social, Ecological and Environmental Theories of Crime Jeffery T. Walker, 2017-07-05 One of the oldest and most extensive forms of criminology falls within what is referred to among other names as social ecology Beginning with the work of Guerry and Quetelet this theory became the dominate paradigm in explaining crime with the work of the Chicago School in the early 1900s social disorganization theory and neighborhood research attempting to deal with crime in deteriorating cities Social ecology is also the basis for the research being conducted in environmental criminology This volume offers a selection of the most influential works in social ecology and environmental criminology It begins with research from human ecology and the Chicago School extending through some of the research in social disorganization theory It encompasses some of the major journal articles from the 1980s and 1990s in neighborhoods and crime and then addresses some of the quintessential works in environmental criminology It ends with groundbreaking work in this area that may indicate the future direction of the field This valuable collection includes an excellent introduction by Jeff Walker **Encyclopedia of Policy Studies, Second Edition** Stuart Nagel, 2020-08-18 This entirely updated and enlarged Second Edition of a landmark reference text continues to provide comprehensive coverage of every important aspect of policy studies discussing concepts methods utilization formation and implementation both internationally and across each level of government *Classics in*

Environmental Criminology Martin A. Andresen, Paul J. Brantingham, J. Bryan Kinney, 2010-05-25 A careful analysis of environmental factors is key to understanding the causes of crime to solving crimes and eventually helping to predict and prevent them *Classics in Environmental Criminology* is a comprehensive collection of seminal pieces from legendary contributors who focus on the role that the immediate environment plays in the occurrence of a crime Defines the field Divided into three parts the book begins by highlighting the development of environmental criminology as a discipline through its origins in spatial criminology It examines social disorganization theory which explains criminal activity with reference to the characteristics of the community that delinquents live in It then discusses the ecology of crime with reference to macroenvironments and microenvironments The next section introduces concepts such as routine activity theory the geometric theory of crime the rational choice theory of offending and crime pattern theory Offers perspectives on prevention The last part focuses on the concept of crime prevention examines the idea of altering the environment in order to prevent crime and discusses situational crime factors and efforts to reduce the opportunities for crimes to be committed It considers the impact of routine activities on crime prevention initiatives and advocates a flexible approach to crime prevention based on the dynamic nature of our environment The book concludes with a chapter outlining how environmental criminology has evolved in recent years and provides a future outlook on where it may be headed Invaluable as a textbook and as a professional reference this volume is a comprehensive survey of a critical field in contemporary criminological theory Offering insight assembled by top academic figures within the criminology community this work is destined to provoke further inquiry and research **NIDA Research Monograph** ,1976 Persuasive Communication and Drug Abuse Prevention Lewis Donohew, Howard E. Sypher, William J. Bukoski, 2012-12-06 The history of drug abuse prevention campaigns suggests limitations in producing measurable changes in behavior In the past there was concern over the possibility of such publicity actually encouraging interest in drug use rather than discouraging such behavior Although little or no scientifically sound empirical evidence has been found to support such a view several social science textbooks still refer to this as something of which to be wary Reviews of early research appear to indicate inadequate methods and a lack of rigor in theory testing In recent years however research in communication and its uses in drug abuse prevention has become considerably more sophisticated and communication is being used far more effectively In this book the editors bring together some of the most successful drug abuse prevention researchers in the country along with other experts in this field or in persuasive communication to address use and effects of both mass media and interpersonal strategies This collection illustrates just how far the study of public influence through mass media has come especially regarding such a vital relevant issue as drug abuse prevention *Biobehavioral Resilience to Stress* Brian J Lukey, Victoria Tepe, 2008-03-19 Military service involves exposure to multiple sources of chronic acute and potentially traumatic stress especially during deployment and combat Notoriously variable the effects of stress can be subtle to severe immediate or delayed impairing individual and group readiness

operational performance and ultimately survival A comprehensive co **Family Policies and Family Well-Being** Shirley L. Zimmerman, Shirley Zimmerman, 1992-07-20 Exploring the connections between family policies individual and family well being and political culture this volume examines several research projects and concludes that their results challenge the view that governmental social programmes in the United States have been detrimental to family life The results also clarify the relationship between states political cultures and the kinds of family policies enacted Additionally Zimmerman provides guidelines to aid the development of a policy agenda designed to enhance the well being of individuals and families regardless of where they live **Scientific Methods for Prevention Intervention Research** Arturo Cázares, Lula A. Beatty, 1994 **Drug Abuse Prevention Intervention Research** National Institute on Drug Abuse, 1991 This monograph is based on the papers and discussion from a technical review on Drug Abuse Prevention Intervention Research Methodological Issues held on May 22 23 1989 Rockville MD The review meeting was sponsored by the National Institute on Drug Abuse

Emile Durkheim Peter Hamilton, 1995 Completing the project of the earlier assessments these volumes concentrate on four themes the reception of Durkheim s work during his life the relationship between his ideas and French society his influence on his followers and his relevance today The Grit Beneath the Glitter Hal Rothman, Mike Davis, 2002-03-15 An anthology of essays and first person narratives offers a glimpse of the people and institutions that support the Las Vegas gaming industry The Science of Crime Measurement Martin A. Andresen, 2014-01-03 Crime statistics are ubiquitous in modern society but how accurate are they This book investigates the science of crime measurement focussing on four main questions how do we count crime How do we calculate crime rates Are there other measurements of crime What are the issues surrounding crime statistics All too often we take the measurement of crime at face value when there is in fact a science behind it This book specifically deals with issues related to spatially referenced crime data that are used to analyse crime patterns across the urban environment The first section of the book considers alternative crime rate calculations The second section of the book contains a thorough discussion of a measure of crime specialisation Finally the third section of the book addresses a number of aggregation issues that are present with such data crime type aggregations temporal aggregations of crime data the stability of crime patterns over time and the importance of spatial scale This book builds on a growing body of literature on the science of crime measurement and offers a comprehensive account of this growing subfield of criminology The book speaks to wider debates in the fields of crime analysis environmental criminology and crime prevention and will be perfect reading for advanced level undergraduate and graduate students looking to find out more about the measurement of crime *Global Report on Student Well-Being* Alex C. Michalos, 2012-12-06 What makes people satisfied or happy with their lives or with particular features of their lives In his attempt to answer these questions the author has applied his Multiple Discrepancies Theory to study the satisfaction and happiness of university undergraduates in 39 countries The project aims to explain global satisfaction and happiness as well as satisfaction in 12 domains health finances

family relations paid employment friendships housing living partner recreation activity religion self esteem transportation and education The forthcoming volumes of this survey will present detailed analysis for every domain country and university for whole groups males and females The four volume set presents a thorough picture of the relative satisfaction and happiness of students in the world **Region and Regionalism in the United States** Michael C. Steiner, Clarence C. Mondale, 1988 **Self-Recovery** David F O'Connell, Charles N Alexander, 2014-03-18 A valuable resource for addressing promoting the spiritual awakening development for patients based on a thoroughly researched system of meditation Nearly 40% of americans saw an alternative healthcare practitioner last year Interest in Yoga an aspect of ayurveda is growing nationally and is starting to become part of more progressive treatment programs Patients want more Providers need to offer more And choices need to be based on scientetific research on complementary alternative medicine which is under researched in the addictions treatment field right now Their has been a flurry of interest in Trancendental Meditation TM the past few months mostly due to very impressive research on lowering blood pressure especially in African Americans This groundbreaking scientifically based book shows how TM can have profound health promoting effects on addictions as well according to recent research on profound brain changes caused by TM practice Self Recovery acquaints readers with the use of Transcendental Meditation program and Maharishi Ayur Veda This natural comprehensive approach to health care as brought to light from the ancient Vedic tradition of India by Maharishi Mahesh Yogi allows individuals to break negative habits that arise from an incomplete understanding of the relationship between mind body and environment Self Recovery shows how this ancient system of mind body medicine through its mental and physical procedures can be used to treat addictive diseases effectively The first book written on the application of the Transcendental Meditation TM program and Maharishi Ayur Veda to addictions treatment this volume is interdisciplinary in scope with original chapters by psychologists physicians physiologists neurochemists and other addictions professionals who offer an alternative paradigm to understanding and treating addictions In contrast to conventional treatments the TM program and Maharishi Ayur Veda appear to provide a natural comprehensive treatment approach that profoundly influences all levels of individual life that can impact on the addictive process Not overly technical Self Recovery shares the pioneering experiences of clinicians using these holistic procedures as well as the striking findings of researchers who have integrated them into current chemical dependency treatments For readers without prior introduction to this new approach the TM program and Maharishi Ayur Veda are briefly but thoroughly described Readers looking for an effective mind body treatment of addictions that is holistic in nature will find it in this book as it introduces them to this very ancient but quite relevant system of healing that can act in a complementary fashion with modern psychological and medical approaches to addictive disorders Practitioners will find a description of Maharishi Ayur Veda programs and learn about incorporating them into daily practice Psychotherapists will learn how this unique program can affect the recovery process from addictive diseases Through rich presentations of theory

research and clinical case studies Self Recovery makes knowledge of Maharishi Ayur Veda and the addictions come alive The book is divided into four sections the first of which contains an examination of the theoretical underpinnings and existing research on the TM program and its applications to addictions treatment The second section features original research on the impact of TM on severe alcoholism and nicotine addiction In section three clinicians share case studies on the impact of the TM program on personal growth experienced during recovery from alcohol and other drug addictions Section four presents theory and clinical application of the twenty approaches of Maharishi Ayur Veda in chemical dependency treatment A vital source of information on addictions treatment this book is essential rea *Family Violence* Douglas J.
