challenge existing histories of the clinic in colonial territories whether of the dispensary the hospital the maternity home or leprosy asylum Some of the major themes addressed within include the attitude of different Christian denominations towards medical mission work their differing theories and practices how the missionaries were drawn into contentious local politics and their attitude towards supernatural cures Leprosy often a feature of such work is explored as well as the ways in which local people perceived disease healing and the missionaries themselves Also discussed is the important contribution of women towards mission medical work Healing Bodies Saving Souls will be of interest not only to students and historians but also the wider reader as it aims to define the place of missionary within the overall history of medicine Hearings United States.
