Mayer, 1985-09-01 For too long the study of law and society in the modern Middle East has been left to specialists in narrow subcategories of law or the social sciences Property Social Structure and Law in the Modern Middle East lays the groundwork for a new field of scholarship in which analysis of the social dimensions of law and the legal dimensions of social structure are integrated It offers the stimulus of a variety of new models of scholarship by a distinguished international group of contributors whose work shares a common focus on regimes of property in the societies of the modern Middle East The case studies examine the regulations of many kinds of property in relation to the social structures of selected Middle Eastern communities from the eighteenth century to the present Most of the societies studied are subjected to pressures for rapid modernization and adjustment to major economic transformations The book features comparisons of property rights and relations under regimes of Islamic and customary law as well as modern statutory law Highlighted are new patterns of intervention by modern Middle Eastern states to alter traditional regimes of property and to transform the accompanying social structures Their implications for development are also considered The book's notes and bibliographies constitute a valuable resource for anyone interested in further research **Social Dimensions of Law and Justice** Frank Seymour Smith, 1966 [Law and Social Order in the United States](#) James Willard Hurst, 2000 **The Indian Yearbook of Comparative Law 2018** Mahendra Pal Singh, Niraj Kumar, 2019-07-10 This yearbook is a compilation of thematically arranged essays that critically analyse emerging developments issues and perspectives across different branches of law It consists of research from scholars around the world with the view that comparative study would initiate dialogue on law and legal cultures across jurisdictions The themes vary from jurisprudence of comparative law and its methodologies to intrinsic details of specific laws like memory laws The sites of the enquiries in different chapters are different legal systems recent judgements and aspects of human rights in a

Law and the Social Sciences Julius Stone, Law and the Social Sciences was first published in 1966 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The author a distinguished authority on law provides an illuminating and challenging discussion of the social aspects of law and legal problems As a background to some penetrating observations he takes stock of the contributions and interrelations of the bodies of knowledge from both the juristic and the social science side which bear upon the study of law at the present time He is concerned to show the respects in which jurisprudential ideas in this area have been stimulated and clarified by work in the social sciences and conversely to draw attention to the need for the increased interest of social scientists in this area to take account of juristic insights many of them of long standing He points out some of the dangers not limited to waste of effort arising from parochialism on the part of either the lawyer or the social scientist The final section is devoted to a study of the contributions potentialities and limits of behavioralist and computer techniques in understanding and operating the appellate judicial process The book is based on a series of three lectures given by the author as the William S Pattee Memorial Lectures sponsored by the University of Minnesota Law School

Neal, 2004-01-01 In the realm of European employment law tension exists between the concepts of economic policy and social policy During recent years a growing tendency to emphasize the economic at the expense of the social can be discerned What this trend gives us in the views of the leading figures in the field of European labour law and social policy whose considered analyses are presented in this volume is a regime of grand declarations about workers rights but with extremely limited enforcement potential i The Changing Face of European Labour Law and Social Policy presents some of the papers given at a series of colloquia sponsored by the Employment Law Research Unit at the University of Warwick in early 2002 In its assessment of the forces at work in European employment law today these commentaries examine significant initiatives and issues including problems arising in the context of the Nice Charter delivering equality at the workplace under the new EU legal framework the crisis facing workers participation in practice the prospects for trans national collective bargaining employment related aspects of human rights under the ECHR and attempts to establish effective protections in relation to

the working environment Invaluable appendices include a report as presented by the late Marco Biagi of a high level group on reform of the European labour market the text of the Social Policy Agenda as approved at the Nice Summit of 2000 and the Commission s scoreboard on the implementation of the Social Agenda as of 2002 With its down to earth analysis of the current status of the floor of rights in the European work environment The Changing Face of European Labour Law and Social Policy will be of inestimable value to all practitioners and scholars seeking to improve the quality of life for Europe s working population and the quality of regulation at the disposal of those charged with confronting the new challenges to social policy resulting from the radical transformation of Europe s economy and society

Labour Law in an Era of Globalization Joanne Conaghan,Richard Michael Fischl,Karl Klare,2004 Throughout the industrial world the discipline of labor law has fallen into deep philosophical and policy crisis at the same time as new theoretical approaches make it a field of considerable intellectual ferment Modern labor law evolved in a symbiotic relationship with a postwar institutional and policy agenda the social economic and political underpinnings of which have gradually eroded in the context of accelerating international economic integration and wage competition These essays which are the product of a transnational comparative dialog among academics and practitioners in labor law and related legal fields including social security immigration trade and development identify analyze and respond to some of the conceptual and policy challenges posed by globalization
