Christopher, 2016-08-30 This practical conceptual introduction to statistical analysis by award winning teacher Andrew N Christopher uses published research with inherently interesting social sciences content to help students make clear connections between statistics and real life Using a friendly easy to understand presentation Christopher walks students through the hand calculations of key statistical tools and provides step by step instructions on how to run the appropriate analyses for each type of statistic in SPSS and how to interpret the output With the premise that a conceptual grasp of statistical techniques is critical for students to truly understand why they are doing what they are doing the author avoids overly formulaic jargon and instead focuses on when and how to use statistical techniques appropriately

Translating and Interpreting Justice in a Postmonolingual Age Esther Monzó-Nebot, Juan Jiménez-Salcedo, 2019-01-15 Postmonolingualism as formulated by Yildiz can be understood to be a resistance to the demands of institutions that seek to enforce a monolingual standard. Complex identities social practices and cultural products are increasingly required to conform to the expectancies of a norm that for many is no longer considered reasonable. Thus in this postmonolingual age it is essential that the approaches and initiatives used to counter these demands aim not only to understand these hyper diverse societies but also to deminoritize underprivileged communities. *Translating and Interpreting Justice in a Postmonolingual Age* is an attempt to expand the limits of postmonolingualism as a framework for exploring the possibilities of translation and interpreting in mediating between the myriad of sociocultural communities that coexist today. Challenging assumptions about the role of translation and interpreting the contributions gathered in this volume focus on intercultural and intergroup understanding as a process and as a requisite for social justice and ethical progress. From different but complementary approaches practical experiences and existing legal and policy frameworks are scrutinized to highlight the need for translation and interpreting policies in legal and institutional contexts in multicultural societies. Researchers and policymakers in the fields of translation and interpreting studies multiculturalism and education and language and diversity policies will find inspiring perspectives on how legal and institutional translation and interpreting can help pursue the goals of democratic societies.
