learners can succeed in today's more rigorous classrooms but how Unlocking English Learners Potential is all about the how

How to scaffold ELs instruction across content and grade levels

How to promote ELs oral language development and academic language

How to help ELs analyze text through close reading and text dependent questions

How to build ELs background knowledge

How to design and use formative assessment with ELs

Along the way you'll build the collaboration advocacy and leadership skills that we all need if we're to fully support our English learners

After all any one of us with at least one student acquiring English is now a teacher of ELs

Schools are not intentionally equitable places for English learners to achieve but they could be if the right system of support were put in place

Diane Staehr Fenner and Sydney Snyder recommend just such a system

Not only does it have significant potential for providing fuller access to the core curriculum it also provides a path for teachers to travel as they navigate the individual needs of students and support their learning journeys
