party and the trade unions remind us about the scale of labours recent decline in electoral support and investigate the party's ideas of representation and asks if Labour is still the workers party The Politics of the Labour Party provides simply the most authoritative analysis of the longer term tensions which lie behind the immediacy of day to day events **Public Affairs Information Service Bulletin** ,1956 *University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles* University of California (System).
