Craig Nation, 1989-10-12 The outbreak of World War I precipitated a schism in the international socialist movement that endures today Heeding calls for rational defense the leading European socialist democratic parties abandoned their vision of peace and internationalism as an integral part of the struggle for social justice and set aside their view of interstate war as the clearest example of the irrational essence of competitive capitalism Only the Zimmerwald Left led by Lenin continued to speak out for internationalism R Craig Nation utilizes sources in Dutch French German Italian Russian and Swedish to provide the first comprehensive history of the Zimmerwald Left as an international political tendency Imperialism and the Revolution Enver Hoxha, 1979 **Dawn of the International Socialist Revolution** Stefan Engel, 2011 *Imperialism and Transitions to Socialism* Rémy Herrera, 2021-09-30 This collection of essays is designed to shed light on the issues of imperialism and the transitions to socialism Delving into the theoretical aspects whose analysis is key for understanding the subject under consideration and practical experiences of socialist transition in China Vietnam North Korea Cuba Venezuela Ecuador and Brazil **Discovering Imperialism**, 2011-11-25 The theory of imperialism is usually associated with some of the big names in the history of European Marxism such as Lenin Rosa Luxemburg Rudolf Hilferding and Nikolai Bukharin alongside whom the English Progressive John Hobson is usually mentioned However little is known about the development of Marxist theory on this subject besides the books of these figures This volume assembles for the first time the main

A Political History of the International Union of Socialist Youth

1907-1917 Patrizia Dogliani, 2023-04-08. This book represents a valuable contribution to the history of the Socialist Second International and more generally of European socialism between the Great Depression of the 1880s and WWI. It comes to fill a gap in the scholarship insofar as it investigates the history of the Socialist Youth International. During the first phase of the making of socialist parties, this organization was in charge of the political and cultural education of the proletarian youth. Capitalizing on an approach based on social quantitative and political history and on an analysis of mentalities and languages, the book reconstructs the many-sidedness of the school of recruits of the social democratic and revolutionary movements. The working conditions of youth in Europe, its unionization and economic struggles, the fight against militarism, the pedagogical work, the internationalism and the commitment to maintain peace, and the attitude of young militants towards the Bolshevik revolution are some of the themes investigated in the book. It also clarifies the role and the engagement with the issue of the new generation shown by prominent figures of Marxism such as Karl Liebknecht, Jean Jaurès, Henri De Man, Willi Münzenberg, Henriette Roland Holst, and Robert Danneberg. Finally, the book constitutes also a page of European social and political history reconstructed through the history of the various youth socialisms and their relationship with the Marxist tradition.
