

BRIAN DONNELLY

Socialist Emigre

György Litván, János Bak

Socialist Emigre:

The Socialist Emigre Brian Donnelly, 2003 Paul Tillich never abandoned the Marxist ideas he developed during the political upheaval of his native Germany in the 1920s and 1930s Indeed he subsumed and incorporated Marxism into the construction of his post German religious thinking and theology which he pioneered after fleeing to the USA in 1933 In the Socialist Emigre Brian Donnelly deals with the philosophical foundations of Tillich's theology specifically the important thread of Marxism and argues that Tillich's later and highly acclaimed theology cannot be divorced from his earlier Marxist views This makes for a seminal work which examines Tillich in a new and critical light and furthers the debate as to the structure of his philosophical theology and the nature of his eclectic thought This unique study features Tillich's boundary thought regarding Marxism and religion faith and culture history and supernaturalism and emphasizes Tillich the philosopher rather then Tillich the theologian Socialism and Capitalism Through the Eyes of a Soviet Émigré Svetlana Kunin, 2020-09-10 Growing up in Union of Soviet Socialist Republics USSR in the 1950 60s a period defined by Soviet leaders as time of developed socialism Svetlana believed in the greatness of socialism fairness equality and the benevolence of the communist leaders managing society s march toward progress Gradually disillusion set in as historical and contemporary events exposed the true reality behind the veil of empty words The decision to immigrate wasn t easy Parents relatives and friends were left behind Then in 1980 came the unexpected discovery of a new life in capitalist USA This unusually personal story that starts in the Soviet Union and ends in the United States draws parallels between two economic and political systems and provides a missing perspective and commentary on parallels to life in the USA In this book Syetlana makes the case for how a free market economy in the USA leads to a dramatically better life for a common person than that of powerful centralized government as she experienced living in both the USA and the former USSR Many articles that the author published in the Investor's Business Daily under IBD Exclusive Commentary Series Perspectives of a Russian Immigrant are poignantly relevant today They are included in the book with IBD s permission The Russian Roots of Nazism Michael Kellogg, 2005-02-03 This book examines the overlooked topic of the influence of anti Bolshevik anti Semitic Russian exiles on Nazism White migr's contributed politically financially militarily and ideologically to National Socialism This work refutes the notion that Nazism developed as a peculiarly German phenomenon it arose primarily from the cooperation between v lkisch nationalist racist Germans and vengeful White migr s From 1920 1923 Adolf Hitler collaborated with a conspiratorial far right German White migr organization Aufbau Reconstruction Aufbau allied with Nazis to overthrow the German government and Bolshevik rule through terrorism and military paramilitary schemes This organization s warnings of the monstrous Jewish Bolshevik peril helped to inspire Hitler to launch an invasion of the Soviet Union and to initiate the mass murder of European Jews This book uses extensive archival materials from Germany and Russia including recently declassified documents and will prove invaluable reading for anyone interested in the international roots of National Socialism

Chinese Émigré Intellectuals and Their Quest for Liberal Values in the Cold War, 1949-1969 Kenneth Kai-chung Yung, 2021-10-11 By examining the life and thought of self exiled Chinese intellectuals after 1949 by placing them in the context of the global Cold War Kenneth Kai chung Yung argues that Chinese intellectuals living in Hong Kong Taiwan and overseas Chinese communities in the 1950s could not escape from the global anti utopian Cold War currents Each of them responded to such currents guite differently Yung also examines different models of nation building advocated by the migr intellectuals and argues in his book that these migr intellectuals inherited directly the multifaceted Chinese liberal tradition that was well developed in the Republican era 1911 1949 Contrary to existing literature that focus mostly on the New Confucians or the liberals this study highlights that moderate socialists cannot be ignored as an important group of Chinese migr intellectuals in the first two decades of the Cold War era This book will inspire readers who are concerned about the prospects for democracy in contemporary China by painting a picture of the Chinese self exiles experiences in the 1950s and 1960s Black Liberation and Socialism Ahmed Shawki, 2005-11-01 A socialist scholar sheds light on the interwoven histories of racism and capitalism in the United States with vital lessons for today's struggle In Black Liberation and Socialism Ahmed Shawki underscores the need to a struggle against racism that is equally clear eyed in its opposition to the economic and political system that supports it capitalism Shawki begins with a socialist perspective on the history of slavery in the United States He then presents a sharp analysis of the country's movements against racism from the separatism of Marcus Garvey to the militancy of Malcolm X and the Black Panther Party to the eloquence of Martin Luther King Ir and more In the decades since the civil rights movement many gains have been made but there is still far to go to win genuine change Black Liberation and Socialism is an essential primer on the history and future of the struggle against racism The Transformation of Austrian Socialism Kurt Leo Shell, 1962-01-01 As most political observers know the powerful socialist parties of Western and Central Europe are facing a profound crisis due to their departure from the Marxist slogans of their youth and their increasing inability to define the meaning of socialist goals in the prosperous mixed economy of individual enterprise and welfare state now in full blast in most European countries In Dr Shell's judgment the Austrian Socialist Party exhibits this transformation most clearly A modern mass party containing more then ten per cent of the entire Austrian population as dues paying members it is no longer full of the sound and fury of Marxist class war slogans Instead its traditional labels conceal a loss of direction of clear sense of mission and of the State within a State function originally envisaged In tracing its history its personalities and achievements from World War I to the present day Dr Shell presents a complete and authoritative picture not only of the Austrian Socialist Party but of what may well be the shape of things to come in the other Socialist parties of Central and Western Europe Paul Tillich and Religious Socialism Kirk R. MacGregor, 2021-03-19 Paul Tillich and Religious Socialism Towards a Kingdom of Peace and Justice argues that the Kingdom of God the reign of God over all human affairs via God's manifestations in love power and justice can be

fragmentarily achieved through a religious socialism that creatively integrates the early Tillich's socialist thinking with later insights throughout Tillich's theological career and with contemporary developments in just peacemaking The resulting religious socialism is defined by economic justice and a recognition of the sacred reality in all human endeavors It employs Christianity to furnish the necessary depth for warding off materialism and affirming the spiritual dimension of both labor and acquiring material goods The unbridgeable Marxist chasm between expectation and reality is bridged through new being already historically inaugurated in the Christhood of Jesus New being is fundamentally oriented toward bringing justice to the poor the disenfranchised and the marginalized It affirms the individual and equal value of all persons and thus in Kantian terms promotes a kingdom of intrinsically worthwhile ends rather than a kingdom of instrumentally worthwhile means of Socialism and Social Science György Litván, János Bak, 2011-07-25 The writings by Ervin Szab selected in this work first published in 1982 are primarily those which address themselves to general issues of the European working class movement and socialist theory presenting proof of his critical insight into Marxist theory and of his perceptive analysis of socialism around the turn of the century Socialism and Social Science (Routledge Revivals) György Litván, János Bak, 2012-11-12 The essays and letters of Ervin Szab 1877 1918 present proof of his critical insight into Marxist theory and of his perceptive analysis of socialism around the turn of the century His ideals of an engaged social science and an enlightened socialism his preoccupation with the socialist future are still relevant today. The writings selected in this work first published in 1982 are primarily those which address themselves to general issues of the European working class movement and socialist theory but there are also a few pieces that characterize the intellectual and political climate of early twentieth century Budapest Szab was one of the theoretical leaders of a whole generation of progressive thinkers from Oscar J szi through Karl and Michael Pol nyi to Georg Luk cs and many others The almost insurmountable conflict between theory and practice that characterized Ervin Szabo s life remains a problem that has to be solved by engaged intellectuals whatever the time and place Background notes and an introduction by the editors help to place the writings in their historical and political Steinmetz: Engineer and Socialist Ronald R. Kline, 2019-12-12 When Charles Proteus Steinmetz 1865 1923 context died suddenly at the height of his fame his face was as familiar to Americans as that of Babe Ruth Henry Ford or Jack Dempsey Newspapers quoted his views on religion politics he was a Socialist science and future technological wonders All were intrigued by the Horatio Alger tale of the penniless hunchbacked German immigrant who rose to fame as the Wizard of Science chief engineer at General Electric and symbol of the new breed of scientists who daily surpassed the feats of Thomas Alva Edison This intellectual biography follows Steinmetz from his education in Germany to his rise as General Electric s chief consulting engineer Steinmetz obtained nearly 200 patents he made his most important contributions in electrical energy loss or hysteresis the understanding and wider use of alternating current and high voltage power transmission General Electric became Steinmetz's home his identity and a platform from which he stepped onto the wider stage of world

affairs As leader of the American Institute of Electrical Engineers Socialist councilman in Schenectady New York and part time professor at Union College Steinmetz attempted to engineer society in the direction of a technocratic utopia by promoting welfare capitalism Lenin s electrification of the Soviet Union and other schemes all with limited success In a life filled with contrasts perhaps even Steinmetz himself a prominent Socialist serving as chief engineer of a major corporation was not always able to separate the myth from the man Steinmetz Engineer and Socialist was the subject of the 2014 PBS documentary film Divine Discontent Well informed by recent studies of similar mythologizing Kline explains both the rise and decline of Steinmetz's popular reputation Robert Friedel Science Kline's explanations are lucid and he offers broader insights about science and technology that will interest all cultural historians Mark Pittenger Journal of American History Steinmetz not only provides the first comprehensive technically sophisticated analysis of Steinmetz's engineering achievements but also carefully examines his influential political and social writings and judiciously dissects the making of the Wizard of Plans for European Union in Great Britain and in Schenectady legend David Sicilia Reviews in American History Exile 1939-1945 Walter Lipgens, Wilfried Loth, 2021-09-07 No detailed description available for Plans for European Union in Great Britain and in Exile 1939 1945 Conversion and Catastrophe in German-Jewish Émigré Autobiography Abraham Rubin, 2024-11-30 Conversion and Catastrophe in German Jewish migr Autobiography is a collective biography of four German Jewish converts to Christianity recounting their spiritual and confessional journeys against the backdrop of the Holocaust and its aftermath Focusing on personal testimonies that fuse historical trauma and spiritual illumination into one narrative the book explores how Jewish emigrants interpreted their experiences of persecution and displacement through the hermeneutics of Christian conversion It draws on autobiographies novels religious writings and newspaper articles as well as unpublished archival materials such as diaries lecture notes and private correspondence. The book explores how chosen genres of writing both enabled and hindered self understanding It also assesses whether the literary paradigm of Christian conversion highlighting an individual s separation from a past sinful self is suitable for expressing a collective catastrophe Applying psychoanalysis disability studies and autobiographical theory to the life writing of converted Jews the book offers new avenues for conceptualizing the Jewishness of historical subjects who disavowed their ties to Judaism Published in association with the United States Holocaust Memorial Museum Yearbook of Transnational History Thomas Adam, 2019-07-19 The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history This second volume provides readers with articles on topics such as transnational marriages exile soccer and missionaries as well as on the campaigns in Communist countries for freeing the American civil rights activist Angela Davis These articles highlight the movement of ideas people policies and practices across various cultures and societies and explore the relations connections and spaces created by these movements The articles in this volume explore interconnected historical phenomena in Asia North and South America and Europe from the late seventeenth century to the

late twentieth century These articles make clear that historical phenomena such as soccer and exile cannot be contained and explained within just one national setting This volume also offers a theoretical article that provides insights into the concept of intercultural transfer studies and its relationship to comparative and global history and an article that surveys the state of research in the field of transnational crime History Of The International: World Socialism 1943-1968 Julius Braunthal, 2019-03-20 With this volume the history of the first century of the International reaches its conclusion Originally I had intended that the trilogy would come to a close with the centenary of the founding of the First International in September 1964 But before I could finish writing the third volume the tragedy of the Communist revolution in Czechoslovakia had played itself out The Spring of Prague of 1968 having set in motion a process of change from a Communist dictatorship to a Socialist democracy was followed within a few months by the invasion of the armies of the five Warsaw Pact powers to forestall reformation in Czechoslovakia Both revolution and counter revolution were events of the utmost significance for the history of Socialism the revolution for showing that it was possible for a Communist system of totalitarian dictatorship to be transformed without resort to force and the counter revolution for showing how the regime in the Soviet Union has remained essentially unaltered since Stalin's death The invasion of Czechoslovakia brutally called in question any optimistic perspective of development within the Soviet Union itself Freud and the Émigré Elana Shapira, Daniela Finzi, 2020-10-16 This book reconsiders standard narratives regarding Austrian migr s and exiles to Britain by addressing the seminal role of Sigmund Freud and his writings and the critical part played by his contemporaries in the construction of a method promoting humanized relations between individual and society and subjectivity and culture This anthology presents groundbreaking examples of the manners in which well known personalities including psychoanalysts Anna Freud and Ernst Kris sociologist Marie Jahoda authors Stefan Zweig and Hilde Spiel film director Berthold Viertel architect Ernst Freud and artist Oskar Kokoschka achieved a greater impact and contributed to the broadening of British and global cultures through constructing a psychologically effective language and activating their migr networks They advanced a visionary Viennese tradition through political and social engagements and through promoting humanistic perspectives in their scientific educational and artistic works The Political Theology of Paul Tillich Rachel Sophia Baard, 2024-01-16 The Political Theology of Paul Tillich explores the political theology of one of the foremost thinkers of the 20th century Paul Tillich whose life and scholarship were decisively shaped by his experiences during World War I his resistance to the rising scourge of Nazism in Germany and his subsequent immigration to the United States Tillich's discerning analysis of fascism grounded in his socialist commitments and his continuing efforts to write theology in correlation with culture make his voice a crucial one for contemporary political theology The contributors to this volume represent different generations social and cultural locations and nationalities Together they explore Tillich's early work on religious socialism and its lingering presence in his later systematic theology bring him into dialogue with liberation theologies apply his thought to contemporary political

Social Democracy in the Making Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world's leading intellectual historians and social ethicists. The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism Émigré Scholars and the Genesis of **International Relations** F. Roesch, Felix Rösch, 2014-07-22 This is the first Anglophone volume on migr scholars influence on International Relations uniquely exploring the intellectual development of IR as a discipline and providing a re reading of some of its almost forgotten founding thinkers German Exile Politics Lewis J. Edinger, 2022-08-19 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology. This title was originally published in 1956
