Socializing Democratic Norms The Role Of International Organizations For The Construction Of Europe

Claire Metelits

Socializing Democratic Norms The Role Of International Organizations For The Construction Of Europe:

Socializing Democratic Norms T. Flockhart, 2005-01-31 This volume offers a timely and important study on how norms are transferred from the international into the domestic domain through processes of socialization It seeks to understand the process of change in post Cold War Europe from a divided continent into a community with a common identity based on shared values and ideas It also offers an explanation for why the process of change has occurred easily in some countries and with more difficulty or not at all in others International Socialization in Europe F. Schimmelfennig, S. Engert, H.

Knobel, 2006-09-04 At the end of the Cold War the Western international community embarked on a large scale project of promoting democratic change and consolidation in Eastern Europe This book explains its mixed results It examines the strategies of European organizations and the conditions of their success and failure **International Actors,**

Democratization and the Rule of Law Amichai Magen, Leonardo Morlino, 2008-07-25 Do external factors facilitate or hamper domestic democratic development Do international actors influence the development of greater civil and political freedom democratic accountability equality responsiveness and the rule of law in domestic systems How should we conceptualize identify and evaluate the extent and nature of international influence These are some of the complex questions that this volume approaches Using new theoretical insights and empirical data the contributors develop a model to analyze the transitional processes of Romania Turkey Serbia and Ukraine In developing this argument the book examines the adoption implementation and internalization of the rule of law the rule of law as a central dimension of liberal and substantive democracy the interaction between external and domestic structures and agents Offering a different stance from most of the current literature on the subject **International Actors Democratization and the Rule of Law** makes an important contribution to our knowledge of the international dimensions of democratization This book will be of importance to scholars students and policy makers with an interest in the rule of law international relations theory and comparative politics

International Organizations and Internal Conditionality R. Fawn, 2013-11-12 This book explores how norms based international organizations namely the Council of Europe and the OSCE are still able to win in world politics Fawn uses the concept of internal conditionality to explain how these organizations have been able to respond to members with a lack of material incentives or instruments of coercion *Global Norms with a Local Face* Lisbeth Zimmermann, 2017-08-03 To what extent are global rule of law norms which external actors promote in post conflict states localized Who decides whether global standards or local particularities prevail This book offers a new approach to the debate about how the dilemma between the diffusion of global norms and their localization is dealt with in global politics Studying the promotion of children's rights access to public information and an international commission against impunity in Guatemala Lisbeth Zimmermann demonstrates that rule of law promotion triggers domestic contestation and thereby changes the approach taken by external actors and ultimately the manner in which global norms are translated However the leeway in local translation is determined

by the precision of global norms Based on an innovative theoretical approach and an in depth study of rule of law translation Zimmermann argues for a shift in norm promotion from context sensitivity to democratic appropriation speaking to scholars of international relations peacebuilding democratization studies international law and political theory **Europeanization**

of Environmental Policy in the New Europe Mats Braun,2016-04-22 Prior to the European Union EU 2004 2007 enlargement there were several predictions that this event would hamper progressive decision making within the EU on environmental policy It was believed that the new member states had adopted EU rules as a consequence of the EU s conditionality and consequently they would rather slow down the reform speed in the field after accession In this book Mats Braun offers an up to date account of how post communist member states have handled policy initiatives in the field of environmental policy after accession Using detailed case studies of how Bulgaria the Czech Republic Poland and Romania dealt with two different EU policy initiatives REACH and the Climate Energy Package he explores whether social norms and the process of socialization can help us understand why the track record of new member states in the area of environmental policy is more varied than was originally envisaged prior to enlargement The Oxford Handbook of NATO James

Sperling,Mark Webber,2025-01-21 The North Atlantic Treaty Organization NATO has since its foundation in 1949 been the principal body of the Western security order and remains as important in the 2020s as it was in the 1950s This Handbook offers the most extensive treatment of the Alliance published in the last two decades providing detailed coverage of NATO allies policies and organizational structures It brings together internationally renowned scholars who interrogate NATO s actions from historical theoretical and empirical perspectives The Handbook is divided into nine parts Following an introductory part offering a thematic overview of NATO framed by different approaches to domestic politics and global order the second part explores three broad questions what is NATO for who is NATO for and whither NATO Part Three is more expressly theoretical providing multi perspectival analyses of the Alliance Part Four then turns to how NATO works as a political military alliance Parts Five and Six are concerned with what NATO does in practical terms how it addresses a wide range of security threats and what operations it has mounted in response Part Seven looks at some of NATO s most significant allies including France Germany Italy Poland Turkey the United Kingdom and the United States Part Eight meanwhile is concerned with partnerships and key relationships beyond NATO s membership looking at Australia Georgia Ukraine Russia China the European Union and the European neutrals as well as ties to states in the Gulf the Middle East and North Africa The final part of the volume offers reflections on NATO s recent past and possible lines of future development

Constitution-Making and Transnational Legal Order Gregory Shaffer,Tom Ginsburg,Terence C. Halliday,2019-04-18 Since the rise of the nation state in the nineteenth century constitutions have been seen as an embodiment of national values and identity However individuals ideas and institutions from abroad have always influenced constitutions and so the process is better described as transnational As cross border interaction is increasing in intensity a dominant transnational legal order

for constitutions has emerged with its own norms guidelines and shared ideas Yet both the process and substance of constitution making are being contested in divergent and insurgent constitutional orders Bringing together leading scholars from the United States Europe Latin America and Asia this volume addresses the actors networks norms and processes involved in constitution making as well as the related challenges from a transnational and comparative perspective Drawing from the research on transnational legal orders this work explores and examines constitution making in every region of the world

New Developments in Environmental and Energy Technologies Jan Baeyens,Raf Dewil,Barbara Rossi,Yimin Deng,2025-03-27 This book presents the selected papers from the 2023 5th International Conference on Environmental Sciences and Renewable Energy ESRE 2023 which was held as a hybrid conference during June 19 21 2023 in Vienna Austria The book includes first rate original research on various aspects of environmental sciences and renewable energy offering perspectives from industrial and research communities to address current challenges in related fields In the field of environmental science wastewater and sludge treatment air pollution and control global environmental change and ecosystems management are discussed In the area of renewable energy several hot topics are presented including solar energy energy conservation and recovery and hydrogen generation and application This book supports the transfer of vital knowledge to next generation researchers students and practitioners in academia and industry

The Effectiveness and Limits of EU Conditionality Lenka Fedorová,2011 This study examines domestic policies in Slovakia from the collapse of communism in 1989 until its EU accession in 2004 It traces policy changes in Slovak healthcare regional policy agriculture and minority protection and it assesses the capacity of domestic political actors and external agents to shape the policy arrangements and institutional environment in a democratizing state aspiring to join the EU The study addresses the issues of democratic transition and consolidation in EU candidate states evaluates the effectiveness and limits of EU conditionality in the respective policy domains and contributes to current debates on democratization Europeanization and policy transfer

Series Europaisierung Beitrage zur transnationalen und transkulturellen Europadebatte Vol 8

The European Union's Democratization Agenda in the Mediterranean Michelle Pace,Peter Seeberg,2013-09-13 Democracy promotion in the Middle East and North Africa MENA remains a central pillar of the foreign policy the European Union EU Rather than concentrating on the relations between the incumbent authoritarian regimes and the opposition in the relevant countries and on the degree to which these relations are affected by EU efforts at promoting democracy human rights and the rule of law an outside in approach this collection of articles inverts the focus of such relationships and attempts to look at them inside out While some contributions also emphasise the outside in axis given that this continues to be analytically rewarding the overarching thrust of this book is to provide some empirical substance for the claim that EU policy making is not unidirectional and is influenced by the perceptions and actions of its targets Thus the focus is on domestic political changes on the ground in the MENA and how they link into what the EU is attempting to achieve in the region Finally the self

representation of the EU and its lack of a clear regional role is discussed This book was published as a special issue of Democratization

The Incomplete Breakthrough in Greek-Turkish Relations Panayotis Tsakonas, 2015-12-11 This methodical analysis of Greece's strategy towards Turkey highlights important new findings about the role particular elements of a state's strategic culture play in explaining major and/or minor shifts in strategy The book breaks new ground in exploring when and how states develop socialization strategies

Inside Insurgency Claire Metelits, 2010 Through interviews and on the ground research this book provides a new explanation of the nature of insurgent group behavior Through case studies of the SPLA, FARC and PKK it offers an intimate understanding of modern day insurgent terrorist groups and their tactics as well as an explanation of the changing behavior of insurgent groups toward the civilians they claim to represent

The Politics of Regional Cooperation and the Impact on the European Union Mats Braun, 2021-05-28 This unique book explores what subregions are in a European context and what roles they fulfil in relation to the European integration process exploring how subregional cooperation and integration in Europe largely take place in the shadow of the European integration process

The European Union and Its Eastern Neighbourhood Andriy Tyushka, Tobias Schumacher, 2021-11-29 This edited volume brings together some of the most important scholarly perspectives in the form of both journal article reprints and original contributions on the structure and dynamics of the EU's multi-layered relations with its Eastern neighbours within the Eastern Partnership EaP framework and beyond In May 2019 the EU's EaP an ambitious and sophisticated policy framework conjoining elements of cooperation and integration with the EU's six eastern neighbours i.e. Ukraine, Belarus, Moldova, Georgia, Armenia and Azerbaijan turned ten years This anniversary in conjunction with repeatedly voiced critique by scholars and policy makers alike regarding the framework's effectiveness and utility led the EU to submit the EaP to a fundamental auditing and revision Structured around both enduring and emerging issues in the broader EU Eastern neighbourhood framework this book provides a retrospective analysis of key structural and relational challenges unfolding regional dynamics distinctive forms of bilateral/multilateral engagement whilst also offering a critical perspective on the contested future relations between the EU and its Eastern neighbours Looking backwards and providing a critical and thorough assessment of the first ten years of the EaP in practice this book thinks forward and gauges its many potential future avenues This comes at a crucial moment as the EU and its six Eastern neighbours are in search of new and mutually acceptable forms of association

Central and Eastern Europe After Transition Wojciech Sadurski, 2016-04-08 How have national identities changed, developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post-transitional phase of the post-Communist area and considers their impact on constitutions, democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful

selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions

Explaining Croatia's (non)compliance with EU conditionality on ICTY cooperation: Do external incentives make the difference? Christian Menz, 2014-02-01 For the positive experience with tying progress in negotiations with progress in reform in Central and Eastern Europe the European Union made its membership offer to the Western Balkans countries conditional on specific democratic principles most notably full cooperation with the International Criminal Tribunal for the former Yugoslavia ICTY Yet although EU membership is regarded as highly attractive both for political elites and the general public in the region the erratic record of compliance with ICTY related EU conditionality in Croatia since 2000 raises questions about the EU's ability to provide for rule transfer and norm diffusion in the current enlargement round and poses a puzzle to scholars of international relations and EU enlargement alike My findings suggest that EU conditionality was rather inconsistently applied toward Croatia Two main conclusions can be made from this First individual member states have gained in influence over enlargement policy that leads to a more politicized use of the conditionality tool undermining its effectiveness Second it illustrates the need to place politics in time and to go beyond purely rationalist explanations **Role**

Theory in International Relations Sebastian Harnisch, Cornelia Frank, Hanns W Maull, 2011-04-06 Role Theory in International Relations provides a comprehensive up to date survey of recent theoretical scholarship on foreign policy roles and extensive empirical analysis of role behaviour of a variety of states in the current era of eroding American hegemony Taking stock of the evolution of role theory within foreign policy analysis international relations and social science theory the authors probe role approaches in combination with IR concepts such as socialization learning and communicative action They draw upon comparative case studies of foreign policy roles of states the United States Japan PR China Germany France UK Poland Sweden and Norway and international institutions NATO EU to assess NATO's transformation the EU as a normative power as well as the impact of China's rise on U S hegemony under the Bush and Obama administrations The chapters also offer compelling theoretical arguments about the nexus between foreign policy role change and the evolution of the international society This important new volume advances current role theory scholarship offering concrete theoretical suggestions of how foreign policy analysis and IR theory could benefit from a closer integration of role theory It will be of great interest to all scholars and students of international relations foreign policy and international politics Experiencing Europeanization in the Black Sea and South Caucasus Oliver Türkeş-Kılıç, Selin Gabrichidze, Gaga Reisner, 2021-11-30 The book series European Studies in the Caucasus offers innovative perspectives on regional studies of the Caucasus By embracing the South Caucasus as well as Turkey and Russia it moves away from a traditional viewpoint of European Studies that considers the countries of the region as objects of Europeanization This second volume demonstrates this by looking into forms of inter regionalism in the Black Sea South Caucasus area in fields of economic cooperation Europeanization of energy and environmental policies discussing how the region is addressed in the elaboration of a new German Eastern Policy In the

section on norm diffusion the contributors assess the normative power strategy of the EU and its paradoxes in the region its impact on civil society development in Armenia and democracy promotion in Georgia In the section on legal approximation issues of a global climate change regime and competition law in Georgia as well as penitentiary governance reform in the South Caucasus according to EU standards and policies are analyzed All contributions also review regional or local contestations for the topics discussed here

Europe after Enlargement Yannis Stivachtis, 2017-07-05 The enlargement of European based organisations has reached a near terminal point The Council of Europe and the Organisation for Security and Cooperation in Europe OSCE currently cover virtually all states of Europe Belarus still remains excluded from the first of these The EU and NATO have experienced extensive processes of enlargement and the scope for continuing enlargement is now limited largely to the Balkans and the European neutrals Given this state of affairs it is now pertinent to think of a Europe characterised not by enlargement but by post enlargement In International Relations IR conceptual thinking on Europe as opposed just to the EU has been undertaken using a range of scholarly tools In this volume attention to Europe proceeds from English School ES thinking and specifically its three fold distinction between international system international society and world society It is the international society element the development institutionalisation of shared interests and identities buttressed by rules and norms which signifies in their most concrete form different patterns of interaction or integration between states This book will be of interest to international relations scholars as well as practitioners within the European Union and other intergovernmental institutions It was published as a special issue of the *Journal of European Integration*
